PETITION OVERVIEW

SITE PLAN AND DESIGN

The subject site is zoned D-4 and is undeveloped. It was rezoned to the D-4 classification in 2024 (2023-ZON-124) to provide for the proposed single-family residential development. Numerous commitments were approved as part of the rezoning process. The proposed plat generally meets the standards of the D-4 zoning classification and the zoning commitments, with the exception of a proposed asphalt path within the right-of-way of Hickory Road (see below under Sidewalks).

STREETS

The plat would provide for two new streets and an extension of one street (Hemingway Drive) previously platted with Fields of New Bethel, abutting the site to the west. Additionally, a new street would connect to the south for a future section or development.

SIDEWALKS

Sidewalks are required along all proposed interior streets. Asphalt paths are proposed along Hickory Road, which is not permitted. Therefore, concrete sidewalks shall be installed, per the Ordinance standards in Chapter 744-302.
