PETITION OVERVIEW

SITE PLAN AND DESIGN

This property is currently zoned D-4 (Cluster) and is undeveloped. The site was rezoned to the D-4 zoning designation via 2004-ZON-020, approval of the cluster subdivision plan was given by 2020-ADM-147, and the modification petition 2021-MOD-003 allowed for a new mixture of lot sizes within the larger subdivision and modified the conceptual site plan from the 2004 rezone. An additional modification petition (2025-MOD-007) was approved to amend commitment #7 of that rezoning to allow for an alternate site layout with a stub street facing to the north instead of to the east.

The 82 lots created by this replatting of 21.24 acres would create Section 5 of the Silver Stream subdivision. The proposed plat meets cluster subdivision regulations and complies with commitments from 2004-ZON-020 and modifications afterward.

STREETS

Approval of the plat would result in the extension of existing streets created by previous sections of the plat (Sunstone Lane, Blue Sapphire Way, Little Pearl Lane, and Rose Mill Drive), and would also result in the creation of Rose Mill Way. Little Pearl Lane would terminate in a cul-de-sac, and Rose Mill Way would terminate in a stub street at the northwest section of the property.

SIDEWALKS

Sidewalks are required along the 52nd Street frontage as well as along newly created internal streets.
