## PETITION OVERVIEW

### SITE PLAN AND DESIGN

This site is zoned C-4 and developed with a commercial integrated center. The proposed plat would subdivide the property into six lots on the northern portion of the property along existing leased spaces and to provide for future commercial development. The 10.68- acre block would be reserved for a future development to be determined. The proposed plat meets the standards of the C-4 zoning classification. All future development must comply with the Transit Oriented Development overlay district standards.

### STREETS

Lots One, Three, Four, and Five would have frontage on Washington Street to the north. Lots Two and Six and Block A would be accessed via easements as shown on the preliminary plat. Block A has a small frontage on Kenyon Street to the east. An alley runs the length of the west property line, adjacent to Lots One and Two and Block A, but is only partially developed. No new streets are proposed as part of this petition.

### SIDEWALKS

Sidewalks are existing along Washington Street.
