NOW, THEREFORE, IT IS RESOLVED:

1. The Commission now confirms, adopts, amends, and approves such Preliminary Resolution and thereby designates, finds, and establishes the Subject Real Estate to be an Economic Revitalization Area. This designation is subject to the conditions that designation allows abatement of property taxes only relative to the installation of the Specified New Equipment on the Subject Real Estate. However, on the written request of the Applicant, the Director of the Department of Metropolitan Development is allowed to authorize in writing, substitutions, modifications, and additions which are not substantial in nature to the Specified New Equipment, prior to March 1 of the year in which the initial certified deduction application for the Specified New Equipment is filed with the County Assessor.
2. **The Economic Revitalization Area designation terminates December 31, 2031. Accordingly, partial abatement of property taxes is allowed relative to Specified New Equipment installed and in operation on the Subject Real Estate during the period from June 18, 2025, to December 31, 2031.** However, termination of this designation does not limit the time the Applicant or successor owner is entitled to receive a partial abatement of property taxes, relative to Specified New Equipment installed on the Subject Real Estate before termination of such designation, to a period of less than six (6) years.
3. The partial abatement of property taxes attributable to the installation of the Specified New Equipment is subject to limitations contained in I.C. 6-1.1-12.1-4.5 (c) and (d).
4. This Economic Revitalization Area designation is limited to allowing partial abatement of property taxes attributable to the installation of the Specified New Equipment on the Subject Real Estate and does not allow the abatement of real property taxes attributable to redevelopment or rehabilitation activities under I.C. 6-1.1-12.1-3. Pursuant to IC 6-1.1-12.1-2 (i), the Commission hereby limits the dollar amount of the deduction that will be allowed, with respect to installation of specified new equipment in the ERA, to those respective tax savings attributable to an equipment investment of not greater than **\$34,146,733.00**.

5. The Commission has determined that the Project can reasonably be expected to yield the benefits identified in the attached personal property statement of benefits (the "Statement of Benefits") and that the Statement of Benefits is sufficient to justify the partial abatement of property taxes requested, based on the following findings:
 - A. The estimate of the cost of the Specified New Equipment is reasonable for equipment of that type.
 - B. The estimate of the number of individuals who will be employed or whose employment will be retained can reasonably be expected to result from the proposed installation of the Specified New Equipment.
 - C. The estimate of the annual salaries of those individuals who will be employed or whose employment will be retained can reasonably be expected to result from the proposed installation of the Specified New Equipment.
 - D. Other benefits about which information was requested are benefits which can reasonably be expected to result from the proposed installation of the Specified New Equipment.
 - E. The "Totality of Benefits" is sufficient to justify the deduction.
6. Under the authority of I.C. 6-1.1-12.1, the Commission directs the Department of Metropolitan Development to survey projects receiving Economic Revitalization Area designation for compliance with job creation/retention figures, salaries associated with these figures and investment figures contained in the Applicant's approved Final Economic Revitalization Area Resolution, the Memorandum of Agreement executed by and between the Applicant and the City, and/or the Statement of Benefits form. The Commission may reduce the dollar amount, or rescind the deduction in its entirety, and/or require repayment of all or a portion of the deductions received by the applicant for failure to achieve the benefits identified in the attached Memorandum of Agreement and/or "Statement of Benefits" or failure to respond to the mandatory survey.

STAFF ANALYSIS

Kimball Electronics was founded in 1961 and incorporated in 1998. Headquartered in Jasper, Indiana, the company operates a key manufacturing site in Indianapolis, located at the corner of 30th Street and Catherwood Drive. This facility, part of the Kimball Medical Solutions division, produces medical disposables, drug delivery devices, and precision-molded plastics. Continued growth and increasing demand are driving Kimball to expand its operations.

The company plans to lease 307,800 square feet of space within a 584,820-square-foot facility located at 1220 South Post Road in Indianapolis/Marion County. The lease agreement is anticipated to span 10 years, with future renewal options, as well as the opportunity to purchase the entire facility and a right of first refusal for adjacent space. The new site will accommodate the construction of class 7 and 8 cleanrooms for medical manufacturing, a plastic molding production area, as well as necessary infrastructure including electrical, mechanical, tooling, laboratory, office, and employee service areas such as restrooms and break rooms.

Currently, the company employs 165 employees with a current salary of \$32/hr., with plans to grow the workforce to over 300 employees at an average salary of \$29/hr. as part of this expansion over a 6-year period. The facility will house automation assembly equipment and plastic injection molding machines essential for producing its core medical products. The total investment for the move and construction is estimated at \$34,146,733, which will be fully funded by Kimball Electronics, Inc., and its affiliates. The company will donate 5% of its tax savings toward workforce initiatives.

The applicant is requesting tax abatement to assist in off-setting the high costs of investment associated with this proposed project. The granting of property tax abatement will assist the petitioner in making this project more economically feasible by phasing in the increased tax liability resulting from the investments. In staff's opinion, a project such as this would not be economically feasible without the tax abatement incentive. Staff believes that the use of tax abatement is an appropriate tool to assist with this project and support continued development within Marion County. For these reasons, staff believes tax abatement to be an appropriate tool for development.

Staff believes this project does comply with the requirements of Metropolitan Development Commission Resolution No. 01-A-041, 2001 concerning the granting of property tax abatement.

RECOMMENDATION: Staff recommends approval of six (6) years personal property tax abatement.

TOTALITY OF BENEFITS

<u>PETITIONER:</u>	Kimball Electronics Indianapolis, Inc.
<u>INVESTMENT:</u>	Staff estimates that the proposed investment of \$34,146,733.00 should result in an increase to the tax base of approximately \$13,658,693.20 of assessed value in the first year of operation. Staff estimates that over the six (6) year personal property tax abatement period the petitioner will realize savings of approximately \$1,324,057.08 (a 67.7% savings). During the abatement period, the petitioner is expected to pay an estimated \$631,799.49 in personal property taxes related to the new equipment. After the tax abatement expires, the petitioner can be expected to pay an estimated \$293,378.49 in personal property taxes annually related to the new equipment.
<u>EMPLOYMENT:</u>	The petitioner estimates that this project will retain one hundred and sixty-five (165) current positions at an average hourly wage of \$32.00/hr. and will create three hundred forty-five (345) new positions at an average wage of \$29.00/hr. Staff finds these figures to be reasonable for a project of this nature.
