## **PETITION OVERVIEW**

### **SITE PLAN AND DESIGN**

The subject site is zoned D-P and is undeveloped. It was rezoned to the D-P classification in 2025 (2024-ZON-115) to provide for a mixed-use development consisting of multi-family and single-family attached senior community development, a single-family detached residential development consisting of 240 units, educational uses, a day care or nursery school, with amenities, including a community garden, a swimming pool, game courts, playgrounds, and pathways.

The blocks are proposed to be established with this plat petition, along with 228 lots. Proposed Block B is the 6600 Hickory Road site, which is separated from the 6908 Hickory Road site by a railroad right-of-way. Block B would contain the proposed multi-family and attached single-family dwellings, for seniors. The 6908 Hickory site would contain single-family detached lots, an educational use (daycare or nursery school) on proposed Block C, and amenities, as noted above. There are 15 proposed common areas and four proposed lakes. The plat proposes 228 lots for the proposed detached single-family residential development. The proposed plat generally meets the standards of the zoning classification and the zoning commitments.

### **STREETS**

The plat would provide for 12 new streets. The interior streets would be accessed from Indian Creek Road South and from Hickory Road. There are no cul-de-sacs proposed.

### **SIDEWALKS**

Sidewalks are required along Hickory Road, Indian Creek Road South, and Southport Road, and all proposed interior streets. The commitments include that a 10-foot-wide multi-use path may be constructed in lieu of sidewalks, along the perimeter of the site, if requested by the Department of Parks and Recreation.
