PETITION OVERVIEW

SITE PLAN AND DESIGN

The subject site is zoned D-P and is undeveloped. It was rezoned to the D-P classification in 2004 (2004-ZON-070) to provide for the proposed single-family residential development. The D-P was amended in 2005 to include a 32-acre park (2005-APP-084). The subject petition would be Section Two of Clifton Trace. The proposed plat generally meets the standards of the zoning classification and the zoning commitments.

STREETS

The plat would provide for five new streets: one collector arterial street and four local streets. The collector street on the south would provide access from 42nd Street into the development. The intersecting streets would connect to Section One to the west, additional lots and provide future connections to potential development to the north. An access easement would be established on the abutting property to the north to provide for a temporary cul-de-sac at the terminus of Moorfield Lane.

SIDEWALKS

Sidewalks are required along Carroll Road, 42nd Street, and all proposed interior streets.
