9. That the plat restrictions and covenants, done in accordance with the rezoning commitments, be submitted prior to recording the final plat.
10. That all the standards related to secondary plat approval listed in Sections 741-207 and 741-208 of the Consolidated Zoning and Subdivision Ordinance be met prior to recording the final plat.

PETITION OVERVIEW

SITE PLAN AND DESIGN

The subject site is undeveloped and zoned CBD-2 (RC). The site is planned for future development of an entertainment area that would include a soccer stadium, a hotel, restaurants, and outdoor entertainment and amenities. Previously, the site contained a heavy industrial use. The buildings have since been demolished. The site was rezoned to CBD-2 (RC) in 2023, via 2023-CZN-807.

The proposed plat would create 12 blocks. From these blocks, lots would be created by future plat petitions before development would occur. The proposed plat includes two, small areas of right-of-way vacation of Gardner Lane and one, small area of right-of-way dedication of Gardner Lane. Gardner Lane is a local street that is accessed from West Street, along the proposed north property line.

This plat would allow the property owner to sell the parcels, with minimal impact on the surrounding property owners.

STREETS

Right-of-way dedication along the south boundary of the subject site is shown for a proposed extension of Henry Street that would link Kentucky Avenue, west over White River, via a proposed bridge, to White River Parkway, West Drive, and the developing Elanco mixed-use development. All blocks would be accessed from public rights-of-way or internal private streets.
