PETITION OVERVIEW

SITE PLAN AND DESIGN

This site is zoned D-P and is improved with an industrial building. The site was rezoned to D-P in 2021, via 2021-ZON-104. The approved D-P development statement indicates that the proposed development would consist of 54 dwelling units, with four, single-family detached dwellings located on the southern portion of the site, and 50 single-family attached units developed on the remainder of the 3.44-acre site.

The proposed plat meets the standards of the approved D-P development statement, per 2021-ZON-104, and the subdivision regulations.

STREETS

New streets and alleys would be developed to access all lots via public rights-of-way. 21st Street would extend from Yandes Street to the west into the development and would connect a new street, an extension of the existing Alvord Street. Two new alleys would also be developed and extend to existing dead-end alleys, providing for superior access to lots.

SIDEWALKS

Sidewalks are required, per the D-P statement, throughout the development with connections to Alvord Street, Yandes Street and a potential sidewalk connection to the Monon Trail, which would require the approval of IndyParks.
