PETITION OVERVIEW

SITE PLAN AND DESIGN

This site is zoned D-3 and is currently unimproved. The Penn Central Railroad line and electrical lines run along the southern property line. The rezoning petition 2007ZON029 was approved in 2007 to allow for residential development with a variety of commitments. Additionally, a cluster subdivision plan was approved via 2024ADM196 to allow for development of 123 single-family detached lots. The proposed plat meets the standards of the D-3 zoning district, the subdivision regulations, and of the commitments associated with 2007ZON029.

STREETS

New streets (unnamed on the submitted primary plat) would be developed to access all lots via public rights-of-way. There would be one point of access from Hanna Avenue (through the existing parcel 7155 E Hanna Avenue) to the north and one street accessing Five Points Road to the west. Two street stubs would also be provided for future connection to land to the east.

SIDEWALKS

Sidewalks are required and proposed along all internal streets.
