PETITION OVERVIEW

SITE PLAN AND DESIGN

This site is comprised of three separate parcels, is predominantly unimproved (although one single-family residence and accessory storage building exists within the northern portion of the subject site) and borders a previous section of Sagebrook West to the south. The site was rezoned to D-4 in 2021 via 2021-ZON-009. The plat indicates this section would be comprised of 40 lots and one (1) common area within 23.38 acres to allow for single-family residential development.

The proposed plat meets the standards of the D-4 zoning district, subdivision regulations, and applicable commitments from 2021-ZON-009.

STREETS

New internal streets would be created in association with this plat: Breadfruit Drive and Dragon Tree Way (with stub connection to the west) would be developed in addition to extensions of the existing roads Dragon Tree Lane and Jacaranda Drive from the previous subdivision section.

SIDEWALKS

Sidewalks are required along the internal streets that would be created and extended by this petition. The Final Plat would need to show placement of those sidewalks per the above Condition #13.
