

BOARD OF ZONING APPEALS DIVISION I

September 3, 2024

Case Number: 2024-DV1-017
Property Address: 2715 and 2719 Madison Avenue
Location: Center Township, Council District #18
Petitioner: TGA SC Global Indy I LP, by Jay Ingrassia
Current Zoning: C-5

Request: Variance of Development Standards of the Consolidated Zoning and Subdivision Ordinance to provide for the location of a six-foot tall wooden privacy fence and a six-foot tall chain link privacy fence within the front yards of Madison Avenue and East Street (maximum fence height of five feet permitted) with the chain link fence along East Street being topped with barbed wire (prohibited, chain link fences not permitted within the front yard) and encroaching within the clear sight triangle of the driveways along East Street (not permitted).

Current Land Use: Self-Storage Facility
Staff Recommendations: Denial
Staff Reviewer: Eddie Honea, Principal Planner II

PETITION HISTORY

This case was initially scheduled for hearing on July 2, 2024. It was continued, for cause, by agreement between Staff and the petitioner, in order to further discuss specifics of the filing.

At the August 6, 2024 hearing, Staff requested a continuance in order to make an amendment to the address on the notice. The petitioner subsequently amended the petition to clarify that the barbed wire portion of the fence is only along East Street. Staff continues to recommend denial of the request.

STAFF RECOMMENDATION

Staff recommends denial of the request.

PETITION OVERVIEW

- This petition would allow for the installation of a six-foot tall decorative fence along the frontage of Madison Avenue, and a six-foot tall chain link fence along the East Street frontage. It would also legally establish an existing six-foot tall chain link fences along the side lot lines, but within the front yard of the subject site.

- At the time of filing, the fence along East Street was improved with barbed wire. The petitioner has verbally indicated this may be removed. Should this still be the intent, the petitioner should verbally withdraw this portion of the request.
- Chain link fencing is not permitted within the front yards of Commercial, Industrial or Mixed-Use Districts in order to promote an enhanced streetscape. In addition, non-chain link fencing tends to be more difficult to scale, remove or otherwise breach which has the effect of enhancing site security.
- The C-5 District, due to the intensity of uses permitted and typical application in areas with significant separation from protected districts and less intense land uses, allows for five-foot tall fencing within front yards. Fence height limitations within front yards are intended to promote aesthetic streetscapes and prevent their “canyonization”
- The clear sight triangle is an area along rights-of-way intersections or driveways where structures or landscaping between 2.5-feet and eight-feet tall are not permitted to be located. This clearance is intended to preserve lines of sight in order to reduce the potential for vehicle, pedestrian and cyclists collisions.
- Barbed or Razor wire is prohibited in all districts and applications with the exception of: enclosing livestock or agricultural uses; public safety facilities; or correctional or penal institutions. This prohibition is intended to enhance streetscapes and the injury or maiming of the public.
- The fence along East Street is comprised of a six-foot tall chain link fence and an electric sliding access gate. Staff believes that this fence can be modified or replaced with a compliant five-foot tall decorative fence that would comply with Ordinance standards. Staff would note that the properties directly across East Street include a High School (Providence Cristo Rey High School) and a public park (Columbia Park). In Staffs opinion, the location of a non-compliant fence, particularly one improved with barbed wire, in close proximity to these land uses is wholly inappropriate.
- Existing six-foot tall chain link fences are located along the northern and southern lot lines, but forward of the primary building, therefore are located within the front yard of the property. The subject site contains two out lots, being 2711 and 2719 Madison Avenues. If these were developed, this portion of the fence request would become compliant. These fences also abut other C-5 zoned properties. While Staff is not opposed to this portion of the request, for these reasons, given the scope of the petition in its entirety, Staff recommends denial.
- As proposed, the mid to southern portion of the subject site along Madison Avenue would be improved with a six-foot tall decorative fence. In Staff’s opinion, a five-foot-tall fence would provide the same degree of site security and that an appropriate practical difficulty is not present warranting a favorable Staff recommendation.

- The subject site was originally improved as a large format retail building (K-Mart) and automobile fueling station. The automobile fueling station has since be demolished and remediated for redevelopment. In 2016 a use variance was filed to allow for an indoor self-storage facility for personal property, including recreational vehicles. It was expressly conveyed to Staff in that filing that outdoor storage and operations would not be provided. Staff recommended approval of that request largely due to this exclusion. The request was approved by the Board of Zoning Appeals on January 17, 2017.
- In 2022 another use variance was filed to allow for the existing self-storage facility in addition to the outdoor covered storage of recreational vehicles. Staff strongly opposed the request given the reasoning of support for the 2016 filing. While outdoor operations are permitted in the C-5 District, outdoor storage is only permitted for vehicles awaiting repair. General outdoor storage, which includes the type of storage permitted by the grant of 2022-UV1-036, is only permitted within the C-7 and Industrial District. Staff would note that these are the same districts that permit self-storage facilities by-right.
- Six-foot tall fences are only permitted by-right within the front yards of C-7, I-3 and I-4 Districts. This is due to the generally enhanced intensity and significant separation from less intense land uses. Staff is concerned about the growing intensity and development pattern of the subject site, particularly by variance grant, and that the site effectively operates at an intensity that is comparable to C-7, I-3 and I-4 uses. In addition, Staff would note that the site is recommended for Community Commercial, which is indicative of C-3 and C-4 zoning. Therefore, Staff believes the property to be over zoned in comparison to its comprehensive plan recommendation.

COMPREHENSIVE PLAN ANALYSIS

Comprehensive Plan

- Land Use Pattern Book

Pattern Book / Land Use Plan

- The Community Commercial typology provides for low-intensity commercial and office uses that serve nearby neighborhoods. These uses are usually in freestanding buildings or small integrated centers. Examples include small-scale shops, personal services, professional and business services, grocery stores, drug stores, restaurants, and public gathering spaces.
- While the request is a development standard and the Land Use Pattern book generally provides guidance on land use, Staff would note that one of the conditions for Large-Scale retailing and Services is that outdoor display should be limited. Given that, in Staffs opinion, the request is primarily driven by the non-permitted outdoor storage, that the request is in direct conflict with the plan recommendation.

PETITION FOR VARIANCE OF DEVELOPMENT STANDARDS

FINDINGS OF FACT

1. The grant will not be injurious to the public health, safety, morals, and general welfare of the community because:

The gate and fence will be within the property limits and will not interfere with regular public operations.

2. The use or value of the area adjacent to the property included in the variance will not be affected in a substantially adverse manner because:

Use will be self-contained and has pre-existed for multiple years without any issues.

3. The strict application of the terms of the zoning ordinance will result in practical difficulties in the use of the property because:

The gate and fence proposed to be approved in the variance were installed prior to the current management. Having to modify them to comply with code would represent a significant detriment to operations of the facility.

DECISION

IT IS THEREFORE the decision of this body that this VARIANCE petition is APPROVED.
