Ref: 2025 Racial Profiling Report

In accordance with Article 2.134 of the Texas Code of Criminal Procedure, relating to the compilation and analysis of information collected, I respectfully submit the 2025 Racial Profiling Report. Attached to this correspondence is the compilation of data collected by the Iowa Colony Police Department, along with the comprehensive analysis conducted by Del Carmen Consulting, LLC.

Pursuant to Article 2.133 of the Texas Code of Criminal Procedure, law enforcement agencies that routinely conduct traffic stops are required to collect and report data related to those stops. For purposes of this statute, a motor vehicle stop is defined as a self-initiated stop by a peace officer that is not associated with a call for service. Prior to the enactment of Senate Bill 1849, agencies were subject to varying reporting requirements based on available technology and operational capabilities. These included Tier 1 (Full Reporting) for agencies without in-car audio or video recording equipment, Tier 2 (Partial Exemption) for agencies equipped with such systems, and an Exemption Report for agencies that did not conduct traffic stops.

Effective January 1, 2018, the passage of the Sandra Bland Act substantially revised the statutory requirements governing the collection and reporting of racial profiling data. Under this legislation, all law enforcement agencies are required to submit full racial profiling reports, regardless of equipment status, and the data collection process was standardized accordingly.

In compliance with applicable statutory requirements, the attached report will be submitted to the Texas Commission on Law Enforcement (TCOLE) and will be made available for public access on the City's official website.

Should you have any questions or require additional information, please do not hesitate to contact me.

LAW ENFORCEMENT EXPERTS

"Dr. Alex del Carmen's work on racial profiling exemplifies the very best of the Sandra Bland Act, named after my daughter. My daughter's pledge to fight for injustice is best represented in the high quality of Dr. del Carmen's reports which include, as required by law, the data analysis, audits, findings and recommendations. I commend the agencies that work with him as it is clear that they have embraced transparency and adherence to the law. "

Iowa Colony City Council
3144 Meridiana Parkway
Iowa Colony, TX 77583

Dear Distinguished Members of the City Council,

The Texas Racial Profiling Law, originally enacted by the Texas Legislature in 2001, was designed to address concerns regarding racial profiling practices in law enforcement. Throughout the preceding calendar year, the Iowa Colony Police Department, in full compliance with statutory requirements, systematically collected and reported traffic and motor vehicle-related contact data for the express purpose of identifying, evaluating, and addressing any potential concerns regarding racial profiling practices within the department.

Since its initial enactment, the Texas Racial Profiling Law has undergone significant legislative modifications. During the 2009 legislative session, the law was amended to incorporate additional data collection and reporting requirements. Subsequently, in 2017, the Texas Legislature passed two landmark pieces of legislation: House Bill 3051, which standardized racial and ethnic classification categories, and the Sandra Bland Act (Senate Bill 1849), which substantially expanded data collection mandates and analytical requirements. The Sandra Bland Act represents the most comprehensive legislative framework in Texas history pertaining to law enforcement contact data requirements. I am pleased to confirm that the Iowa Colony Police Department has satisfied all statutory requirements, and the documentation contained herein demonstrates full compliance with these legislative mandates.

This annual report is organized into distinct sections, each addressing specific components of the compliance framework. Section One contains the table of contents, providing navigational guidance throughout the document. Section Two presents documentation demonstrating the Iowa Colony Police Department's compliance with the procedural requirements established under the Texas Racial Profiling Law, including evidence of mandatory training protocols for all sworn personnel on racial profiling prevention, as well as the institutionalization of formal compliment and complaint processes as required by statute.

Section Three contains comprehensive statistical data pertaining to motor vehicle-related contacts, as defined by applicable law, occurring between January 1, 2025, and December 31, 2025. This section includes the Tier 2 reporting form, which must be submitted to the Texas Commission on Law Enforcement (TCOLE) and the local governing authority by March 1 of each calendar year. All data presented in this report was compared against the Fair Roads Standard, a baseline measure derived from U.S. Census Bureau data. The analytical findings and corresponding recommendations are presented in detail within this section.

The final section of this report contains reference materials, including the original text of Senate Bill 1074 (the Texas Racial Profiling Law) and the Sandra Bland Act (current governing law). Additionally, this section includes a comprehensive listing of compliance requirements established by TCOLE. The findings documented in this report substantiate the Iowa Colony Police Department's ongoing commitment to full compliance with the Texas Racial Profiling Law and its commitment to constitutional policing practices.

Respectfully submitted,

Alex del Carmen, Ph.D.
Criminologist

Informing the Public on the Process of Filing a Compliment or Complaint with the Iowa Colony Police Department

The Texas Racial Profiling Law requires that police agencies provide information to the public regarding the manner in which to file a compliment or racial profiling complaint. In an effort to comply with this particular component, the Iowa Colony Police Department launched an educational campaign aimed at informing the public on issues relevant to the racial profiling complaint process.

The police department made available, in the lobby area and on its web site, information relevant to filing a compliment and complaint on a racial profiling violation by a Iowa Colony Police Officer. In addition, each time an officer issues a citation, ticket or warning, information on how to file a compliment or complaint is given to the individual cited. This information is in the form of a web address (including in the document issued to the citizen), which has instructions and details specifics related to the compliment or complaint processes.

It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.

All Iowa Colony Police Officers have been instructed, as specified in the Texas Racial Profiling Law, to adhere to all Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Iowa Colony Police Department have completed the TCOLE basic training on racial profiling. The main outline used to train the officers of Iowa Colony has been included in this report.

It is important to recognize that the Chief of the Iowa Colony Police Department has also met the training requirements, as specified by the Texas Racial Profiling Law, in the completion of the LEMIT program on racial profiling. The satisfactory completion of the racial profiling training by the sworn personnel of the Iowa Colony Police Department fulfills the training requirement as specified in the Education Code (96.641) of the Texas Racial Profiling Law.

2.0 RACIAL PROFILING AND THE COMMUNITY

2.1 UNIT GOAL: The student will be able to identify logical and social arguments against racial profiling.

2.1.1 LEARNING OBJECTIVE: The student will be able to identify logical and social arguments against racial profiling.

A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer's intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism.

B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole.

C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers.

D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow's legitimate stop.

E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources.

3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION

3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.

3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.

A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements

B. "DWB" – "Driving While Black" – a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.)

C. A typical traffic stop resulting from racial profiling

1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers
2. The driver and passengers are questioned about things that do not relate to the traffic violation
3. The driver and passengers are ordered out of the vehicle
4. The officers visually check all observable parts of the vehicle
5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside
6. The driver is asked to consent to a vehicle search – if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)

3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.

A. Drug courier profile (adapted from a profile developed by the DEA)

1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
3. Vehicle is rented
4. Driver is a young male, 20-35
5. No visible luggage, even though driver is traveling
6. Driver was over-reckless or over-cautious in driving and responding to signals
7. Use of air fresheners

B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.

A. Thinking about the totality of circumstances in a vehicle stop

B. Vehicle exterior

1. Non-standard repainting (esp. on a new vehicle)
2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)

C. Pre-stop indicators

1. Not consistent with traffic flow
2. Driver is overly cautious, or driver/passengers repeatedly look at police car
3. Driver begins using a car- or cell-phone when signaled to stop
4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

D. Vehicle interior

1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

Legislative Background and Statutory Framework

In 2001, the Texas Legislature enacted Senate Bill 1074, establishing the Texas Racial Profiling Law. This legislation became effective on January 1, 2002, and required all law enforcement agencies in Texas to collect traffic-related contact data and submit annual reports to their respective local governing authorities by March 1 of each calendar year. The original statutory framework remained substantially unchanged until 2009, when the Texas Legislature passed House Bill 3389, introducing significant amendments to the data collection and reporting requirements.

The 2009 legislative amendments, which took effect on January 1, 2010, expanded the definition of reportable contacts to include all motor vehicle-related encounters resulting in the issuance of a citation or custodial arrest. Additionally, the amended statute required law enforcement officers to document whether they possessed knowledge of the individual's race or ethnicity prior to initiating the detention. The 2009 legislation also mandated the inclusion of "Middle Eastern" as a distinct racial and ethnic classification category and established TCOLE as the central repository for annual data submissions.

In 2017, the Texas Legislature enacted two significant pieces of legislation affecting racial profiling data collection requirements. House Bill 3051 eliminated the Middle Eastern classification category and standardized racial and ethnic designations to align with federal reporting standards. Concurrently, the Sandra Bland Act (Senate Bill 1849) was passed and signed into law, representing the most comprehensive legislative mandate in Texas history regarding law enforcement contact data requirements. The Sandra Bland Act, which became effective on January 1, 2018, not only expanded data collection requirements but also mandated detailed analytical assessments addressing the following statutory elements:

1. *A comparative analysis of compiled information pursuant to Article 2.133, including:*
 - a. *Evaluation and comparison of motor vehicle stops within the applicable jurisdiction between persons recognized as racial or ethnic minorities and persons not recognized as racial or ethnic minorities;*
 - b. *Examination of the disposition of motor vehicle stops conducted by agency personnel, categorized according to the race or ethnicity of affected persons, including any searches resulting from stops within the applicable jurisdiction;*
 - c. *Evaluation and comparison of searches resulting from motor vehicle stops within the applicable jurisdiction and documentation of whether contraband or other evidence was discovered during the course of such searches.*
2. *Documentation of all complaints filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.*

Analytical Methodology and Baseline Considerations

In accordance with the Texas Racial Profiling Law and Sandra Bland Act requirements, the Iowa Colony Police Department commissioned an independent analysis of its 2025 motor vehicle contact data. The analytical framework employed in this study incorporated two distinct methodological approaches. The primary analysis involved a comprehensive evaluation of all motor vehicle-related contact data collected during the 2025 reporting period. This analysis measured, as required by statute, the number and percentage of contacts involving individuals classified as White, Black, Hispanic or Latino, Asian and Pacific Islander, and Alaska Native and American Indian, who encountered law enforcement during motor vehicle-related contacts resulting in the issuance of citations, warnings, or custodial arrests.

The Tier 2 data analysis encompassed multiple variables including, but not limited to: the number and percentage of contacts by race and ethnicity; gender distribution; documented reason for the stop; geographic location of the encounter; search activity including search type classification; outcome of the contact; legal basis for any resulting arrest; and any use of physical force resulting in bodily injury. This comprehensive data collection framework enables a thorough assessment of departmental practices and facilitates identification of any patterns warranting further examination.

The analytical framework employed in this report utilized a comparative methodology that assessed 2025 motor vehicle contact data against an established demographic baseline. It should be noted that considerable scholarly debate exists regarding the appropriate baseline measure for analyzing motor vehicle-related contact data. Among available baseline measures, the Iowa Colony Police Department accepted the recommendation to employ the Fair Roads Standard as the primary comparative benchmark. This particular baseline is derived from U.S. Census Bureau data (2020) pertaining to the number of households with vehicle access, controlled for the race and ethnicity of heads of households.

It is important to acknowledge the methodological limitations inherent in utilizing census-derived baseline data for racial profiling analysis. Census data encompasses all residents within a given jurisdiction, regardless of their status within the driving population. Furthermore, census data captures information exclusively pertaining to municipal residents, thereby excluding individuals who may have encountered the Iowa Colony Police Department during the reporting period but reside outside jurisdictional boundaries. In certain municipalities, contacts with non-residents constitute a substantial proportion of all motor vehicle-related encounters recorded during any given reporting period.

In 2002, prominent civil rights organizations in Texas advocated for the adoption of the Fair Roads Standard as the preferred baseline measure for all law enforcement agencies conducting racial profiling analyses. This standard compares census data specific to "households" with vehicle access against "contacts," which represent individual-level counts. This methodological approach introduces the potential for ecological fallacy, as household-level data is being compared with individual-level contact data. Notwithstanding these limitations, the Iowa Colony Police Department elected to employ this comparison methodology to demonstrate institutional commitment to transparency and community accountability. The Fair Roads Standard data utilized in this analysis is specific to the jurisdiction of the Houston-Baytown CSA.

Tier 2 Motor Vehicle-Related Contact Analysis (2025)

Examination of the enhanced Tier 2 data collected during the 2025 reporting period reveals distinct patterns in motor vehicle-related contacts. The demographic distribution of contacts indicates that the majority of motor vehicle-related encounters involved Black individuals, followed by Hispanic individuals. Among all individuals contacted by law enforcement, the greatest number of citations were issued to Black and Hispanic individuals, followed by White individuals. With respect to written warnings, the majority were issued to Black individuals, with White individuals representing the second largest recipient group.

Analysis of search and arrest data reveals that the majority of searches were conducted involving Black individuals. When examining search methodology, the greatest number of consent searches involved White and Hispanic individuals. The majority of custodial arrests involved Black individuals. Overall, the preponderance of searches resulted in the discovery of contraband. Among searches that yielded contraband, the majority involved Black individuals, followed by Hispanic individuals. Among searches that did not produce contraband, the majority involved Black individuals.

Arrest data indicates that the majority of custodial arrests involved Black individuals. Among arrests originating from alleged violations of the Texas Penal Code, the majority involved Black individuals. With respect to use of force, the department reports no instances where physical force was used resulting in bodily injury during the reporting period.

Comparative Analysis

A comprehensive comparative analysis was conducted examining 2025 motor vehicle contact data against census data pertaining to households within the Houston-Baytown CSA that reported vehicle access in the 2020 Census. This analysis produced the following findings:

The percentage of White and Asian individuals who came into contact with law enforcement was equal to or lower than the percentage of White and Asian households within the Houston-Baytown CSA that reported vehicle access in the most recent census enumeration. Conversely, the data revealed that a higher percentage of Black, Hispanic, and American Indian individuals came into contact with law enforcement compared to the percentage of Black, Hispanic, and American Indian households that reported vehicle access. It should be noted that the percentage differential for American Indian contacts relative to household representation is 1%, which may be considered statistically insignificant depending upon the analytical threshold employed.

The contraband discovery rate analysis reveals that among all searches conducted during the 2025 reporting period, American Indian individuals demonstrated the highest contraband hit rate, followed by Black and Hispanic individuals respectively. This indicates that among all searches performed, the highest percentage of searches resulting in contraband discovery involved American Indian individuals. The lowest contraband discovery rate was observed among Asian individuals.

Summary of Findings

As mandated by the current Texas Racial Profiling Law, law enforcement agencies are required to conduct data audits to validate the accuracy and reliability of reported data. In compliance with this requirement, the Iowa Colony Police Department engaged Del Carmen Consulting, LLC to perform independent data audits consistent with normative statistical practices and methodological standards. As documented in the accompanying audit report, the validation process confirms that the data submitted is both valid and reliable.

Furthermore, as required by statute, this report includes a comprehensive analysis of search activity, including documentation of whether contraband was discovered as a result of searches while controlling for the race and ethnicity of searched individuals. The search analysis demonstrates that the Iowa Colony Police Department is engaging in search practices consistent with prevailing national trends in law enforcement and does not reveal patterns indicative of discriminatory practices.

Based upon the analytical findings presented in this report, the following recommendations are offered to ensure continued compliance and institutional best practices:

1. Continue to collect and evaluate supplementary motor vehicle contact data elements, including but not limited to documented basis for probable cause searches and detailed contraband classification, which may prove valuable in assessing the nature and circumstances of law enforcement contacts with all individuals.
2. Commission an independent analysis of contact and search data during the upcoming reporting period to maintain analytical continuity and identify any emerging trends.
3. Continue to commission periodic data audits to ensure data integrity and verify that collected data is consistent with reported data, thereby maintaining the validity and reliability of all submissions.

Conclusion

The comprehensive data analysis presented in this report serves as documented evidence that the Iowa Colony Police Department has achieved full compliance with the Texas Racial Profiling Law and all associated statutory requirements. This report demonstrates that the department has:

- Implemented and maintains a comprehensive racial profiling policy in accordance with statutory requirements;
- Established and publicized procedures for members of the public to file compliments or complaints regarding officer conduct;
- Commissioned periodic data audits to ensure the validity and reliability of all collected and reported data;
- Collected and commissioned independent analysis of all required Tier 2 data elements; and
- Ensured that the practice of racial profiling is expressly prohibited and will not be accepted or tolerated within the organization.

The Iowa Colony Police Department remains committed to constitutional policing practices, equitable treatment of all individuals, and continued compliance with all applicable state and federal requirements pertaining to racial profiling prevention and reporting.

TCOLE GUIDELINES

Guidelines for Compiling and Reporting Data under Senate Bill 1074

Background

Senate Bill 1074 of the 77th Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of **what** must be accomplished by an agency but allows wide latitude in determining **how** the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The *standard statement* is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

Standard 1

Each law enforcement agency has a detailed written directive that:

- clearly defines acts that constitute racial profiling;
- strictly prohibits peace officers employed by the agency from engaging in racial profiling;
- implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
- provides for public education relating to the complaint process;
- requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency's written racial profiling policy; and
- requires the collection of certain types of data for subsequent reporting.

Commentary

Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an “agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers’ official duties.”

The article further defines race or ethnicity as being of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American.” The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.

Standard 2

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person’s race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer’s best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

Commentary

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, “the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose.”

Standard 3

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.

Commentary

Senate Bill 1074 from the 77th Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide an analysis of the information collected by peace officer employed by the agency. The report is provided to the governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).

The minimum requirements for “tier one” data for traffic stops in which a citation results are:

- 1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American”);
- 2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable cause search; and
- 3) whether there was a custody arrest.

The minimum requirements for reporting on “tier two” reports include traffic and pedestrian stops. Tier two data include:

- 1) the detained person’s gender and race or ethnicity;
- 2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into hazardous or non-hazardous);
- 3) whether a search was conducted, and if so whether it was based on consent or probable cause;
- 4) facts supporting probable cause;
- 5) the type, if any, of contraband that was collected;
- 6) disposition of the stop, e.g., arrest, ticket, warning, or release;
- 7) location of stop; and
- 8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual report of information if the agency is an agency of a county, municipality, or other political subdivision of the state. Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops

including searches resulting from the stops. The reports also include information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in interpreting the data involving percentages because of statistical distortions caused by very small numbers in any particular category, for example, if only one American Indian is stopped and searched, that stop would not provide an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate would be skewed data when compared to a 50% rate for Caucasians.

Standard 4

If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the agency:

- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a complaint on written request by the officer.

Commentary

The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a complaint and the officer makes a written request.

Standard 5

Agencies that do not currently have video or audio equipment must examine the feasibility of installing such equipment.

Commentary

None

Standard 6

Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 TCCP and officers are exempt from the reporting requirements of Article 2.133 TCCP provided that:

- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

Commentary

The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 TCCP.

Standard 7

Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

Commentary

Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.

The Texas Law on Racial Profiling

S.B. No. 1074 - An Act relating to the prevention of racial profiling by certain peace officers.
BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Chapter 2, Code of Criminal Procedure, is amended by adding Articles 2.131 through 2.138 to read as follows:

(c) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make traffic stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make traffic stops. If a law enforcement agency installs video or audio equipment as provided by this subsection, the

policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(e) A report required under Subsection (b)(7) may not include identifying information about a peace officer who makes a traffic stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the collection of information as required by a policy under Subsection (b)(6).

(b) A law enforcement agency shall compile and analyze the information contained in each report received by the agency under Article 2.133. Not later than March 1 of each year, each local law enforcement agency shall submit a report containing the information compiled

during the previous calendar year to the governing body of each county or municipality served by the agency in a manner approved by the agency.

(c) A report required under Subsection (b) must include:

(1) a comparative analysis of the information compiled under Article 2.133 to:

(2) information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

(d) A report required under Subsection (b) may not include identifying information about a peace officer who makes a traffic or pedestrian stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the reporting of information required under Article 2.133(b)(1).

(e) The Commission on Law Enforcement Officer Standards and Education shall develop guidelines for compiling and reporting information as required by this article.

(f) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

Art. 2.135. EXEMPTION FOR AGENCIES USING VIDEO AND AUDIO EQUIPMENT. (a) A peace officer is exempt from the reporting requirement under Article 2.133 and a law enforcement agency is exempt from the compilation, analysis, and reporting requirements under Article 2.134 if:

(1) during the calendar year preceding the date that a report under Article 2.134 is required to be submitted:

(A) each law enforcement motor vehicle regularly used by an officer employed by the agency to make traffic and pedestrian stops is equipped with video camera and transmitter-activated equipment and each law enforcement motorcycle regularly used to make traffic and pedestrian stops is equipped with transmitter-activated equipment; and

(B) each traffic and pedestrian stop made by an officer employed by the agency that is capable of being recorded by video and audio or audio equipment, as appropriate, is recorded by using the equipment; or

(b) Except as otherwise provided by this subsection, a law enforcement agency that is exempt from the requirements under Article 2.134 shall retain the video and audio or audio documentation of each traffic and pedestrian stop for at least 90 days after the date of the stop. If a complaint is filed with the law enforcement agency alleging that a peace officer employed by the agency has engaged in racial profiling with respect to a traffic or pedestrian stop, the agency shall retain the video and audio or audio record of the stop until final disposition of the complaint.

(c) This article does not affect the collection or reporting requirements under Article 2.132.

Art. 2.136. LIABILITY. A peace officer is not liable for damages arising from an act relating to the collection or reporting of information as required by Article 2.133 or under a policy adopted under Article 2.132.

(a) The Department of Public Safety shall adopt rules for providing funds or video and audio equipment to law enforcement agencies for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), including specifying criteria to prioritize funding or equipment provided to law enforcement agencies. The criteria may include consideration of tax effort, financial hardship, available revenue, and budget surpluses. The criteria must give priority to:

(1) law enforcement agencies that employ peace officers whose primary duty is traffic enforcement;

(2) smaller jurisdictions; and

(3) municipal and county law enforcement agencies.

(b) The Department of Public Safety shall collaborate with an institution of higher education to identify law enforcement agencies that need funds or video and audio equipment for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A). The collaboration may include the use of a survey to assist in developing criteria to prioritize funding or equipment provided to law enforcement agencies.

(c) To receive funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency needs funds or video and audio equipment for that purpose.

(d) On receipt of funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency has installed video and audio equipment as described by Article 2.135(a)(1)(A) and is using the equipment as required by Article 2.135(a)(1).

(6) whether a search of the vehicle was conducted and whether consent for the search was obtained;

(7) the plea, the judgment, and whether bail was forfeited;

(8) ~~[(7)]~~ the date of conviction; and

**IOWA COLONY
POLICE DEPARTMENT
RACIAL PROFILING POLICY**

Bias-Based Policing

401.1 PURPOSE AND SCOPE

This policy provides guidance to department members that affirms the Iowa Colony Police Department's commitment to policing that is fair and objective.

Nothing in this policy prohibits the use of specified characteristics in law enforcement activities designed to strengthen the department's relationship with its diverse communities (e.g., cultural and ethnicity awareness training, youth programs, community group outreach and partnerships).

401.1.1 DEFINITIONS

Definitions related to this policy include:

Bias-based policing or improper profiling - An inappropriate reliance on actual or perceived characteristics such as race, ethnicity, national origin (including limited English proficiency), religion, sex, sexual orientation, gender identity or expression, economic status, age, cultural group, disability, or affiliation with any non-criminal group (protected characteristics) as the basis for providing differing law enforcement service or enforcement (Tex. Code of Crim. Pro. art. 2B.0051). This includes explicit and implicit biases (i.e., conscious and unconscious beliefs or attitudes toward certain groups).

401.2 POLICY

The Iowa Colony Police Department is committed to providing law enforcement services to the community with due regard for the racial, cultural, or other differences of those served. It is the policy of this department to provide law enforcement services and to enforce the law equally, fairly, objectively, and without discrimination toward any individual or group (Tex. Code of Crim. Pro. art. 2B.0053).

401.3 BIAS-BASED POLICING PROHIBITED

Bias-based policing is strictly prohibited.

However, nothing in this policy is intended to prohibit an officer from considering protected characteristics in combination with credible, timely and distinct information connecting a person or people of a specific characteristic to a specific unlawful incident, or to specific unlawful incidents, specific criminal patterns or specific schemes.

401.4 MEMBER RESPONSIBILITIES

Every member of this department shall perform his/her duties in a fair and objective manner and is responsible for promptly reporting any suspected or known instances of bias-based policing to a supervisor. Members should, when reasonable to do so, intervene to prevent any bias-based actions by another member.

401.4.1 REASON FOR CONTACT

Officers contacting a person shall be prepared to articulate sufficient reason for the contact, independent of the protected characteristics of the individual.

To the extent that written documentation would otherwise be completed (e.g., arrest report, field interview (FI) card), the involved officer should include those facts giving rise to the contact, as applicable.

Except for required data-collection forms or methods, nothing in this policy shall require any officer to document a contact that would not otherwise require reporting.

401.4.2 REPORTING TRAFFIC STOPS

The Patrol Division Commander should ensure that the Department has appropriate systems in place to collect information required by state racial profiling laws.

Each time an officer makes a traffic stop, the officer shall gather the required information using the system in place for racial profiling reporting (Tex. Code of Crim. Pro. art. 2B.0054).

401.5 SUPERVISOR RESPONSIBILITIES

Supervisors should monitor those individuals under their command for compliance with this policy and shall handle any alleged or observed violations in accordance with the Personnel Complaints Policy.

- (a) Supervisors should discuss any issues with the involved officer and their supervisor in a timely manner.
 - 1. Supervisors should document these discussions in the prescribed manner.
- (b) Supervisors should periodically review Mobile Audio/Video (MAV) recordings, body-worn camera (BWC) media, Mobile Data Computer (MDC) data, and any other available resource used to document contact between officers and the public to ensure compliance with this policy (Tex. Code of Crim. Pro. art. 2B.0151).
 - 1. Supervisors should document these periodic reviews.
 - 2. At least every six months, supervisory reviews shall include at least three random BWC and/or MAV videos for each officer.
 - 3. Recordings or data that capture a potential instance of bias-based policing should be appropriately retained for administrative investigation purposes.
- (c) Supervisors shall initiate investigations of any actual or alleged violations of this policy.
- (d) Supervisors should take prompt and reasonable steps to address any retaliatory action taken against any member of this department who discloses information concerning bias-based policing.

401.6 STATE REPORTING

The Chief of Police shall submit a report to the Texas Commission on Law Enforcement (TCOLE) and to each governing body served by the Department by March 1 of each year in accordance with Tex. Code of Crim. Pro. art. 2B.0055.

401.7 ADMINISTRATION

The Patrol Division Commander should review the efforts of the Department to provide fair and objective policing and submit an annual report, including public concerns and complaints, to the Chief of Police. The report should also include a documented review of department activities with potential for bias. This may include traffic and field contacts, asset forfeiture efforts, citizen complaints, and any corrective measures taken. The annual report should not contain any identifying information about any specific complaint, member of the public, or officer. It should be reviewed by the Chief of Police to identify any changes in training or operations that should be made to improve service (Tex. Code of Crim. Pro. art. 2B.0053).

Supervisors should review the annual report and the report submitted to TCOLE and discuss the results with those they are assigned to supervise.

401.8 COMPLIMENTS AND COMPLAINTS

This education may be achieved by information provided through the department website. This information shall include the telephone number, mailing address, and email address to make a compliment or complaint regarding a ticket, citation, or warning issued by an officer.

401.9 TRAINING

Training on fair and objective policing and review of this policy shall be conducted annually and include:

- (a) Explicit and implicit biases.
