

## Executive Council Rules – Red Tape Review

These are the rulemakings that resulted from the Executive Order 10, Red Tape Review. The proposed changes are non-substantive and non-controversial technical clean up and other changes to align the rules with current practice. In accordance with Executive Order 10, Rule Reports for each existing chapter were completed prior to September 1, and posted on the Council’s webpage. Regulatory analyses for the repromulgated chapters will be published in the November 1 Administrative Bulletin. Public hearings on the regulatory analyses will be held on November 21 from 11:30 a.m. to 12:30 p.m. The five Notices of Intended Action (NOIAs) must be submitted to LSA no later than December 6 in order to be published in the December 27<sup>th</sup> bulletin and comply with EO 10. However, we will try to submit on November 22. The Executive Council needs to approve the rulemakings before the NOIAs are submitted.
