Subject: Initial notification of 29C20 claim - Adair South - Surge Damage Report
Date: Wednesday, July 31, 2024 11:02:00 AM

Executive Council and Tammy,

On 7-31-24 a Motorola Tech was investigating system alarms at the ISICS Adair South tower site for several alarms going off. He found a surge arrestor with melted cards in it. This was most likely cause by a lightning strike from the 7-30-24 overnight storms that went through that area. Please accept this as the initial notification for a 29C20 damage.

Thank you.
