Tammy and Executive Council,

Visual inspections of multiple ISICS tower sites were conducted this week by Dave Gordon, Motorola Customer Support Manager. On 4-7-23 he reported damage to the Iowa and Woodward sites from recent storms.

Please accept this email as the initial notification of 29C20 damage due to acts of nature to DPS Interoperability Communication Towers. For reference, I have included the earlier notification regarding the damage to the Adair North ISICS tower that occurred during the same event.

Executive Council and Tammy,

On 4-4-23, an Aviat tower crew working on the Adair North ISICS Tower discovered a damaged radome that arose after the thunderstorms on 3-31-23. This is only the preliminary damage report. It is possible there could be more extensive damage not yet discovered at other tower sites. Investigations of all potentially damaged tower sites will continue this week. Please accept this email as the required 29C20 Act of Nature Notification regarding storm damage that occurred on 3-31-23 to the Adair North ISICS tower. A repair estimate will be forthcoming upon receipt.
