## Adair North Site Storm Damage Report

On 3-31-23, there was a report of a broken dish cover at the ISICS Adair North Site. This sustained weather related damage.

### Adair North Tower Damage

One of the dishes on the tower sustained damage from weather related event/storm.

Secondary 6ft dish facing the Atlantic site.

#### *Facing Atlantic Site*

The secondary dish facing the Atlantic site had to have the dish radome cover replaced.

The dish was removed from the tower and lowered to the ground. Then a new cover was installed on the dish. The dish then had to be raised back up the tower and re mounted. The dish was aligned back into specifications.
