Good morning,

An ICN field technician discovered exposed ICN cable today in Middle Fork One Hundred and Two River along US Highway 148 in Taylor County just east of Gravity, IA . Exposure is the result of continued and excessive erosion of the river bank and will require relocation via directional bore of the river and placement of maintenance splices. The ICN would like to submit this as a claim for reimbursement for damages due to natural causes (erosion). Please let me know of any questions.
