Subject: Exposed Equipment due to Excessive Erosion along Highway 4 at Beaver Creek  
in Palo Alto County on October 14, 2025  
Iowa Communications Network (ICN)  
Claim dated October 28, 2025  
AOS Claim ID: 4184

In accordance with Executive Council policy, we have examined the claim for 29C.20 funds for the above-mentioned damage. It is our conclusion that the above-mentioned damage incurred by the Iowa Communications Network (ICN) is covered by Chapter 29C.20 of the Code of Iowa. The amount requested may include costs that will be covered by a monthly maintenance contract for technician services that are not additional expenses to ICN. The actual claim for reimbursement should only be for expenses that exceed the technician hours per the maintenance agreement.

Therefore, we recommend an Executive Council allocation for the requested amount of \$15,271.17, subject to audit of actual invoices and supporting documentation and demonstration that no costs covered by the maintenance contract have been included.

Sincerely,

CAUTION: This email originated from outside of AOS. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good morning,

Late yesterday, an ICN field technician discovered exposed ICN fiber optic cable along Iowa Highway 4 at Beaver Creek in Palo Alto County. The exposed cable is the result of continued and excessive erosion in the creek bed. Restoration will require relocating the cable through the area, likely via directional bore and placement of new maintenance splices. The ICN would like to submit this as a claim for reimbursement for damages due to natural causes (erosion). Please let me know of any questions or concerns.

Respectfully,

**Dave Augspurgen****Sr Telecom Specialist | OSP Lead**
