The Executive Council, in a meeting held on this date, approved payment of the following cost item:

Department of Public Safety.....\$19,950.00
On May 21, 2024, severe storms caused damage to the antenna at Tama ISICS Communication Tower. Request was to cover repair costs.

This represents full and final payment, \$2,550.00 will be reverted and this allocation closed.

Subject: Storm Damages to Tama ISICS Communication Tower on May 21, 2024
Department of Public Safety
Claim dated August 14, 2024
Supplemental allocation dated September 13, 2024
AOS Claim ID: 3772

In accordance with Executive Council policy, we have examined the invoices and supporting documentation for final payment related to the damages and have found the items to be in order as shown below:

Documented request		<u>\$ 19,950.00</u>
Executive Council Allocation		\$ 22,500.00
Less:		
Previous payments	\$ 0.00	
This payment	<u>19,950.00</u>	
Total		<u>\$ 19,950.00</u>
Remaining Executive Council allocation		<u>\$ 2,550.00</u>

We recommend reimbursement be made in the amount of \$19,950.00. This represents full and final payment of the loss. The remaining allocation should be reverted to the State Treasury.

Sincerely,

Brian R. Brustkern, CPA
Deputy Auditor of State

Reference: 29C.20 reimbursement claim ref. severe tornado damage at the Tama ISICS tower site. AOS claim #3772

State of Iowa Executive Council:

On December 18, 2024, Motorola submitted an invoice for \$19,950.00 regarding act of nature (AON) damage to the Tama ISICS tower site. Severe storms caused damage to a tower antenna.

The DPS Interoperability Communications Bureau is respectfully submitting a 29C.20 reimbursement claim for \$19,950.00 for this damage.

The attachment to this notification email includes:

- The reimbursement claim
- The initial 29C.20 AON notification of damage to the Tama ISICS tower
- The Motorola repair invoice, dated December 18, 2024
- A storm damage summary report, dated December 19, 2024, detailing the work conducted with photographs depicting the damage that occurred.
- A copy of the Iowa Advantage payment to Motorola for the repairs

Thank you for your consideration and assistance with this repair.

Sincerely,

Lieutenant Joshua Duden
Assistant Bureau Chief
Iowa DPS Communications & Interoperability Bureau
Office of the Commissioner

[5-21-24 Initial 29C20 Notification ref. Tama ISICS Tower - Radome damage from storm debris AON.msg](#)

Executive Council and Tammy

Please see below ref. an update to the 5-21-24 AON damage to the Tama ISICS accordingly. Dave Gordon, Motorola Customer Representative, inspected the Tama ISICS Tower on 5-31-24 and discovered the tower radome is not damaged, but there is a broken tower antenna that was caused by the 5-21-24 storms. Please amend the previously submitted 5-21-24 Initial 29C20 Notification for the Tama ISICS Tower reflecting the AON damage as a broken antenna and remove the broken radome cover. The DPS Communication 29C20 AON Tracking spreadsheet has been updated. A repair estimate will be forthcoming. Photos of the broken antenna are below.

Captain,

I am not sure about the 29C20 process and how things work.

The original report was AON damage to radome. I confirmed there was none. So in my mind that should be closed out.

But there was new AON damage found on the receive antenna that will need to be reported since it was not seen or known about at the time of the radome report.

Give me a call if you would like to discuss further.

Thanks,

Dave

Good Afternoon,

I was able to stop by and inspect the Tama site last night.

Radomes

All radomes look good to me. See photos below:

tama all dishes.png

tama primary facing brooklyn.png

tama secondary facing brooklyn.png

tama primary facing marshall.png

tama secondary facing marshall.png

Damaged Receive Antenna

During my inspection the receive antenna has damage at the tip. Probably caused lightning

or debris. We will need to discuss what you would like to do about this antenna. I do not recall any complaints or issues around Tama so it appears to be working.

The pictures are not the best as I had my camera at maximum zoom and noticed it.

Tama receive antenna zoomed.png

tama receive antenna zoomed 2.png

Please let me know if you have any questions.

Thanks,

Dave

This one is tricky. We should get a zoom camera out there and get close ups.

I recall this site can give a bit of an optical illusion from the road view.

We had this one on a list before and when we went to replace it the tower crew found it was fine.

Thanks,

Dave
