AON 29C20 allocation request ref. broken radome cover on the Mitchellville ISICS tower.

State of Iowa Executive Council:

On 3-6-24, Dave Gordon, Motorola Customer Support Manager, was driving past the Mitchellville ISICS tower and noticed a broken radome cover. He advised he was at the tower on 2-29-24 and there were not broken covers. The damage had to have occurred between 3-1-24 and 3-6-24. Over that time period there were high wind events in the area.

Motorola Warranty Representative Dave Gordon was able to provide the DPS Interoperability Communications Bureau an estimate of \$9,500 for repairs to the broken radome covers. Repairs will commence when a tower crew becomes available.

The DPS Interoperability Communications Bureau is respectfully submitting a 29C20 Allocation Request for \$9,500 regarding this act of nature damage.

Thank you for your consideration.

Sincerely,

Lieutenant Joshua Duden  
Iowa DPS Communications & Interoperability Bureau

Good Evening,

Driving back from Des Moines today I noticed a broken radome at Mitchellville. This is the primary dish facing JFHQ.

I drove back from Des Moines last Thursday and it was not broken then. My assumption is that it broke over the weekend during those high winds.

Please let me know if you have any questions.
