DAS Risk,

At approximately 6:30 pm last night, I was returning from a day long training in SE Iowa when a large deer leaped into my lane on Co Rd W-14 and I squarely ran into it. No air bags deployed, the car was still driveable, and I was able to make it 17 miles to my destination.

This same vehicle was involved in a deer collision a few months ago. I will take it in for an estimate and then send in the accident report form once I have that information. If you have any questions, please let me know.
