Jesse Parker Building, 510 East 12th Street, Des Moines IA 50319–9025 PO #: 00524457366 Work Order 7194317	
Water main break:	
01.15.24 Cut concrete and waited for excavator.	
01.16.24 Dug up north side of retaining wall to see if main was broken. Main appears to be broken between retaining wall and building. Will need to get a breaker to pass out concrete to make repair on south side of retaining wall.	
01.17.24 Uncovered main. Found that the four-inch Main had a split. Uncovered pipe to make sure that the pipe was not compromised past the break. Everything looked good. Installed a repair band intestate. Had main repair inspected by city and backfilled hole.	
01.18.24 Returned equipment and cleaned up site. Left concrete blankets on site until concrete can be re-poured.

Brooke,

That is my fault. I submitted the possible 29c20 claim for Jessie Parker and forgot to include you in the process. My apologies. Please see the below email chain. Let us know if you have any questions.

Thank you,

All,

On behalf of the Department of Administrative Services, I am submitting a possible 29C20 claim for water damage due to excessive cold temperatures. Due to the extreme cold, the Jessie Parker building experienced a ruptured main waterline, which caused water infiltration into the building, and potential structural damage to the building. At this time the exact extent of the damages or potential damages are unknown and DAS-GSE has staff and contractors on-site to assess the damage and repairs needed. We will continue to update and provide additional information as requested.

Thank you,

---
