The DPS Interoperability Communications Bureau is respectfully submitting a 29C.20 allocation request for \$9,800 regarding this act of nature damage.

Thank you for your consideration.

Sincerely,

Lieutenant Joshua Duden

Good Afternoon,

This is what I mentioned on today's call and following up with an email.

Motorola had a tower crew onsite to replace the previously reported broken radome at the Woodbury WIT tower (primary 6ft dish facing Plymouth that ISICS owns).

They could not replace that one due to the high winds that day since this dish was at the top.

While onsite they reported a new broken radome on another dish.

This is the primary 6ft dish that faces the Woodbury ATT tower owned by ISICS.

Please let me know if you have any questions.

Thanks,
