Yes, please have an accident report completed for each vehicle and send that to me here. A damage estimate also needs to be obtained and sent here - once i have both of those, we will look at whether a claim is needed. If repairs can be made, we'll provide approval to get the vehicles repaired or if they are totaled we'll let you know how that process works.

Just be aware that DAS requires damage be reported within 24 business hours in order for self-insurance to apply. These are going to be looped in with the dozens of other hail claims we have from that week so in this case it's not an issue, but if this were isolated or another type of accident, DAS needs to be notified right away for the damage to be covered.

Thank you!

I am emailing you to report that two possibly three vehicles experienced hail damage during the Storm that rolled through Waterloo, IA on 4/14/26. Vehicle 2017, a 2026 Chevy Traverse had visible hail damage to the hood and possibly roof (I could not get a good visual of roof from the ground); Vehicle 2520, a 2015 Dodge Caravan had hail damage to the hood and roof of the vehicle. Vehicle 1721 was out and not available for inspection this morning. I had requested these vehicles be inspected by our local office fleet oversight on Monday 4/20/26 when I was concerned there may have been damage from the storm that may have not been reported. Having been told a staff had witnessed some damage and I had not heard or seen any damage reports I inspected the vehicles that were at the Black Hawk Office today and discovered the damage on the vehicles noted above. Based on the email response before I would presume the next step is the accident reports and damage reports need to be completed and submitted to you. If I am missing something please let me know.
