Brooklyn Site Storm Damage Report

On July 26th, 2022 there was a report of a broken dish cover at the ISICS Brooklyn Site. There had been wind storms in the area that week.

Brooklyn Tower Damage

1 of the dishes on the tower sustained damage from the storm. This is the primary 6ft dish facing the Iowa site.

Facing Iowa Site

The primary dish facing the Iowa site had to have the dish radome cover replaced.

The dish had to be removed from the tower and lowered to the ground. Then a new cover was installed on the dish. The dish then had to be raised back up the tower and re mounted. The dish was aligned back into specifications towards the Iowa site.
