RE: Roadway Improvements to Industrial Drive in the Soccer Park –  
Engineering Services Proposal

---

Attached is a proposal for engineering services from Koehler Engineering for design and construction engineering for paving the remainder of Industrial Drive from the existing concrete to the property line of the Jackson Soccer Park.

The engineer's estimate for construction of this project is \$50,000, to include a minimal amount of grading and a 4 ½" asphalt overlay of the existing road bed without the installation of storm sewers. The existing gravel road is approximately 22' wide and the pavement will be the same width.
