September 24, 2025

To: The Board of Alderman

At this time I am asking for you to consider eliminating parking on the inside of the curves on Dorothy, Alvin and Cecile. I currently have two school buses delivering students in this area. We have encountered a box truck parked in the curve, vehicles parking the wrong direction and trucks and cars parking in the curve. On several occasions our 83 passenger bus has had to drive upon the curb and grass to get around these vehicles. I could have all students come to the corners and pick them up on Farmington. We have many stop arm violation in this area and I feel this is not a safe solution.

I would appreciate you eliminating parking on one side and enabling us to keep our students safe.

Sincerely,

Carol Woods
