RE: Greensferry Road Assessment

On October 3, 2022, two residents who live on Greensferry Rd. spoke at the Mayor and Board of Aldermen meeting. They expressed concerns over the speed of the vehicles traveling on Greensferry as well as the safety of the curve located near 1525 Greensferry Rd. Staff engaged the services of the Lochmueller Group to complete an assessment of Greensferry Rd. starting from E. Deerwood Drive and ending at the Jackson City Limits. The results of the assessment are attached to this memo. The final recommendations included installation of a curve warning sign, striping a double yellow center line, and installing centerline rumble strips in the curve area. Staff recommends pursuing the recommendations provided the Lochmueller Group.
