## Subject: Grant Updates

Mayor and Board of Aldermen,

I just wanted to provide an update on each of the grants applied for.

**\$96,000 2023 Homeland Security Grant:** 100% grant - Decontamination shower, ventilation fans, Haz-Mat ID, calibration of air monitoring detection equipment, and licenses for GIS and subscriber service for devices.

**\$19,000 2023 EMPG Grant:** 50/50% grant - We have been applying for this for over 15 years. This pays for storm siren maintenance and activation software. It also provides reimbursement for subscriber fees for phone, cable, and internet service.

**\$39,560 ARPA EMS Agency Grant:** 50/50% grant - EMS Supplies and several Paramedic training aids.

**\$80,000 2022 Assistance to Fire Act Grant:** 95/5% grant - We have applied to replace our breathing air machine/fill station for our SCBA cylinders. Our current unit is 18 years old.

**\$56,000 Fire Prevention and Safety Grant:** 95/5% grant - We will be applying for a large LED sign and a blow-up smoke house for fire safety and prevention talks.

If you have any questions, you can contact me anytime.

Sincerely,

Jason Mouser  
Fire Chief
