RE: Missouri Highway and Transportation Commission Program Agreement Supplement

Attached is a supplemental agreement to the existing Missouri Highway and Transportation Commission Transportation Alternatives Funds Program Agreement for construction of the East Main Sidewalk project from Bellevue Street to Shawnee Boulevard.

The original program agreement was entered in November of 2022 and the City hired Bacon Farmer Workman as the consulting and design engineer. The original agreement lists the date for the city to have a contractor under contract as 8/12/2024. We were proceeding through the process until we encountered delay in the environmental approvals. We have been waiting since May for approval by the State Historic Preservation Office. That final approval must be received by MODOT before they can issue their final approval of our construction plans and allow us to start acquiring right-of-way.

The new date is the date chosen by MODOT and we expect it to be sufficiently extended.
