

# MEMO

**To:** Mayor Dwain Hahs and Members of the Board of Aldermen  
**From:** Rodney Bollinger, Director of Administrative Services  
**Date:** August 28, 2025  
**Re:** Housekeeping Updates to Traffic Control Schedules

---

This memo accompanies six (6) agenda items that are primarily housekeeping in nature and pertain to updates to the City's traffic control schedules.

Previously, the Board took formal action to vacate the public rights-of-way for portions of East Jefferson Street and West Madison Street. However, no concurrent action was taken at that time to address the traffic control laws that had been enforced on those now-vacated streets.

Upon review, City staff—along with the City Attorney—has determined that certain traffic control designations listed in the municipal code are either no longer necessary or require amendment to reflect current conditions. These updates are intended to improve clarity, remove outdated references, and ensure that the City's traffic regulations align with existing roadway configurations and traffic patterns.

The proposed repeals and amendments are administrative in nature and will better support safe, efficient traffic regulation while serving the public interest.

Should you have any questions or require further details on any of the proposed changes, staff will be available during the meeting to provide clarification.
