RE: Missouri Regional Bridge Program – Sunset Drive Bridge

On May 15, 2023, the Board of Alderman approved a Missouri Regional Bridge Program Application to the Missouri Department of Transportation for the Sunset Drive Bridge Replacement Project. The application included an estimated cost of \$568,750.00 for both construction and construction inspection. Design has already begun by Koehler Engineering under Task Order 23-04 and is being fully funded by the City.

Staff is happy to report that the application was selected to receive funding. The funding received from the grant will cover 90.61% of the cost requiring the City to provide a 9.39% local match. Attached to this memo is the notification letter from MoDOT announcing the selection of the project.

The next step for this project will be the completion of a program agreement. Once this document is received from MoDOT, it will be presented to the Board for consideration in the next scheduled study session.

Mr. Dwain Hahs, Mayor
City of Jackson
101 Court Street
Jackson, MO 63755

RE: Project # BRO-R129(001)
2023 Off-System Bridge Replacement Program

Dear Mr. Hahs:

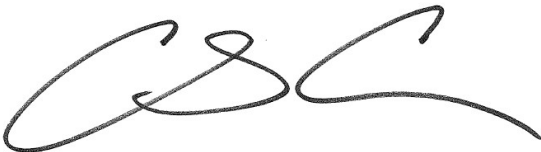

Thank you for participating in this round of the Off-System Bridge Replacement Program. The City of Jackson's application was carefully considered by the Southeast District's selection committee, comprised of our Regional Planning Commission and Metropolitan Planning Organization staff.

Congratulations! Your project was selected to receive funding for this year's call for projects. We have combined funds from the BRO and the BFP (Bridge Formula Program) and were able to award your project at an estimated pro rata share of 9.39% local match. The city's local share may come from ARPA funding (if less than 10 million was received), soft-match credit, local cash, or CDBG funding.

The program agreement will be emailed to the city for signatures once the agreements are drafted.

If you have any questions, please contact me at 573-380-1658 or by e-mail at christopher.crocker@modot.mo.gov.

Sincerely,

Christopher Crocker
Area Engineer
