To Whom It May Concern:

I am writing a letter of support in reference to RCH Development's proposal for the building of affordable housing consisting of 40 duplex units with garages which consists of housing for the women's crisis center, SB40 housing, and low income housing, as well as units on the open housing market.

The City of Perryville has successfully collaborated with schools and other stakeholders in the past and have had a good relationship with the community in past developments. Our residents enjoy a high quality of life with great schools, good healthcare, and excellent law enforcement and fire protection.

If you need further information from us regarding this letter of support, please feel free to contact me at the Perryville Police Department by calling 573-547-4546.

Respectfully submitted,

  
Direk Hunt  
Chief of Police
