

PUBLIC WORKS MEMORANDUM

City of Jackson

TO: Mayor and Board of Aldermen

FROM: Janet Sanders, Director of Public Works

DATE: November 16, 2023

RE: Proposal for Task Order to Strickland Engineering for Relocation of a Portion of the Water Main on South Hope Street.

The new construction of the Golden Rule Insurance building at the intersection of South Hope Street and Easton Drive has revealed that the existing water main is outside its easement and is interfering with construction of their parking lot. This main was installed over 20 years ago by a private developer and it is now the responsibility of the City to move the affected portion into the correct location.

Attached are a location map and the associated Task Order Proposal from Strickland Engineering for design of this relocation. The work will be performed by the city's Water Department.
