

PUBLIC WORKS DEPARTMENT

AGENDA ITEM REPORT

TO: Mayor and City Council

FROM: Porter Massengill, Director

DATE: June 12, 2026

SUBJECT: Clean Sedimentation Basins at Water Plant

BACKGROUND:

- The City originally received a quote from Superior Environmental Solutions, LLC for the cleaning of the two (2) sedimentation basins at the City's water plant. The quote was for \$19,140.90 each, for a total price of \$38,281.80. The City Council approved this quote at their April 6, 2026, meeting. After their representative came to look at the water plant, they determined that the work was more extensive than expected. They rebid the job for \$96,377.00.
- The City reached out and received a quote from MB and R Contractors, Inc. for cleaning the basins at the water plant. This quote totals \$69,540.000. This is more than originally approved.
- This is a project that is necessary to water plant operations and is necessary for compliance with our discharge permit from TDEC.

FISCAL IMPACT:

The original approved cost was \$38,281.80. The new quote is for \$69,540.00.

REQUEST/RECOMMENDATION:

I request to waive the formal bid process and use a local company that we have a positive work history with and has a background knowledge of our system. Please grant approval of MB & R Contractor's bid of \$69,540.00.
