October 2026
PUBLIC WORKS
MONTHLY REPORT

NORMAL WEEKLY DUTIES

- TRASH: Monday, Wednesday, and Friday.
- PARKS: Clean parks, Weed whip, and Mow.
- RECYCLE: Pickup cardboard Monday, Wednesday, and Friday. The trailer goes to recycle on Thursdays.
- WATER: Read water meters on Thursdays.
- HURF: Clean curb and gutters, Weed whip.
- SEWER: Repair lines.

OTHER PROJECTS

- Upon finishing the water line in deception, we were told after a few weeks that one service was left out. That was on us, we traced all lines and thought we had them all located and knew how to tie them all in. Once discovered, we ordered the parts, dug and placed a new line and back filled.
- Grade work on 1st and North Dr.
- Repair the roof above the cop shop
- We had quite a few sewer issues throughout the month that individually weren't bad, bad all totaled took up quite a bit of time.
- Weve had a lot of storms and water this month, and we've been doing a lot of repairs and or clean up from them.
- Hauled 4 or five loads of sand out to Walnut.
- Haul all pipe and fittings out to Walnut
- Do a little work on the concrete on Hull. Unfortunately, this has been a busy month with a lot of little things that have come up and put this on the back burner.
- Water leak in the Gulch Above Jane's house.
- We replaced a valve on the Giroux st. regulator.

- A few small repairs on water and gate at the apt on Verde.
- Water leak on School St. Broken service line.
- Water leak on the sprinklers in the Middle park.
- We had an issue with the regulators on School St. The upper 2 inch was not working correctly due to ware; we worked late into the night to rebuild it and the lower 2" that was affected from the upper. We were able to get it stabilized, but we realized the issue with the upper 2" and decided to pull it and install a new 2". That fixed the issue until the whole system gets replaced in the next week or so.
- Cleaned out the drainage in the lower Gulch.
- Pulle apart the 10" valve at walnut, cleaned, relubricated and put it back together.
- The pipe at Walnut is so dilapidated. As you all know we've decided to bypass the cistern and pipe the whole thing. If you have any questions about it, please contact me.

Its been a busy month for sure. We also welcomed a new employee Alex Curtner, whose first day was on the 2nd of November.
