- Thursday May 21st – Whiting/Native AIR- Helicopter ops
- Saturday May 23ed/24- K. Lee- Rope technician recertification
- Thursday May 28th – Whiting- Extrication

Department Affairs and Ongoing Projects

- The Fire Department was requested to assist with a rescue call earlier this month by Verde Valley Fire District in the Sycamore Canyon area. Once on scene we were able to assist with a technical rope rescue. The patient had fallen down a cliff and had been there for over six hours. Once we were able to access the patient, we noted multiple fractures and a possible concussion from his fall. The patient was assisted by a rescue team and hauled up the canyon wall. He was then airlifted to Phoenix for treatment of his injuries.
- The Fire Department has had multiple new volunteers join. We are now seeing better response to calls from our out-of-town volunteers and some are staying nights when coverage is low. We still have a lack of response from our in-town volunteers, and we are trying to come up with a remedy to encourage them. We are working on creating a more suitable and comfortable place for volunteers to relax after normal work hours, we will work with the auxiliary to obtain some furniture. The main issue would be the weight room and where to move it so we can create a dorm room for overnight shifts. A work in progress
- Our weekly trainings are getting more participation, and we have been more hands-on. We have started to train more on weekends with a higher participation of out-of-town volunteers coming in to man the station, these trainings have been crucial to the new found interest in our fire department. Not only are they great for skills building but team building too. It is wonderful to see the fire department culture coming back to the Jerome fire department.
- The Fire Department Auxiliary Pancake Breakfast on My 9th. The participation was good with many town residents coming out for breakfast, With the success the auxiliary will host another one next year.
