

Meeting Name: Town Council Meeting
Meeting Date: October 23, 2024
Prepared By: Andrea Dobbins, Project Coordinator/Risk Manager
Item Title: Donald Ross Dune Walkover Renovation (FRDAP grant)

DISCUSSION:

The Town of Juno Beach was awarded the Florida Recreation Development Assistance Program (FRDAP) Grant in July 2024. This grant will provide state funding in the amount of \$112,500 with a \$37,500 local match (75/25) to renovate a newly acquired dune walkover at Donald Ross Road (JB0). This project will renovate the walkover structure with additional funding allocated by the Town to address the drainage issues that have been identified. Isiminger & Stubbs Engineering, Inc. and Simmons & White will work in collaboration on this project.

Isiminger is the Town’s coastal engineer that will design the dune walkover structure. They have worked for the Town for decades and have provided their expert engineering services for all the dune walkovers in Juno Beach. Simmons & White will contribute their civil engineering services to create and design a drainage solution for the erosion taking place in this area. Both engineering firms will rely heavily on the detailed topographical survey provided by R.L. Vaught & Associates to guide their engineering design. The engineering team will be able to make sound decisions once they have studied the topographical survey. Staff solicited three (3) quotes for survey work from surveyors recommended by the Town’s engineers. R.L. Vaught was the lowest and the most responsive surveyor.

RECOMMENDATION:

Staff recommends that the Council make a motion to enter into the following agreements for engineering and surveying services with funding from the One Cent Surtax:

Isiminger & Stubbs Engineering, Inc. in the amount of \$19,000 for engineering design services and not to exceed \$7,000 for construction oversight observation services;

Simmons & White Civil & Traffic Engineering in the amount of \$17,500 for engineering design services and not to exceed \$5,000 for construction oversight observation services;

R.L. Vaught & Associates, Inc. for topographical survey information not to exceed \$4,800;
and to authorize the Town Manager to execute each of these agreements.

ATTACHMENTS:
