

Hi David:

Thank you again for your patience. We have had a busy month.

Please know this is a “ball park” estimate. To get a firm number, I would need to dig into your code more closely to understand how involved this assignment would be.

My ballpark estimate is \$65,000. This would include developing a strikethrough and underline of each section of code that is involved as well as creation of the Draft Ordinances (for legal to review/approve); assistance with the required public advertising; Attendance to the LPA/Commission 1<sup>st</sup> reading and Commission 2<sup>nd</sup> reading; and collaborating with your staff for revisions.
