Product/Service	Description	Qty.	Unit Price	Total
Pedestal Water Fountain Installations	Plumb-All will disconnect and remove the three existing drinking fountain units at Lee Street Park and dispose of them properly. Each existing unit will be unbolted from its concrete foundation and hauled off site. Three new Elkay LK4420BF1UDBEVG Evergreen Outdoor Bi-Level Pedestal EZH2O Bottle Filling Stations will be furnished and installed in their place. Each unit features an ADA-compliant drinking fountain, an integrated bottle filling station, and a pet/dog bowl. The three fountain locations are as follows: one unit is located at the corner of Spring Street and Lee Street, one unit is located near the front of the park along Lee Street, and one unit is located near the center of the park. For the one unit located along Lee Street near the front of the park and the one unit located near the center of the park, Plumb-All will tie directly onto the existing water service piping, whatever material it may be, provided it is found to be in viable condition at the time of installation. This scope does not include the replacement of any large sections of existing water service piping. Minor fittings and short sections of pipe necessary to make the connections to the new fountain units are included. For the unit located at the corner of Spring Street and Lee Street, Plumb-All will furnish and install up to twenty feet of new three quarter inch water service pipe to connect the fountain to the water meter at that location. The City of Jonesboro is responsible for identifying an existing water meter or having a new water meter installed to supply water service to that fountain prior to Plumb-All's installation. Plumb-All's scope at that location will begin at the meter and does not include water meter procurement,	1	\$42,900.00	\$42,900.00

	installation, or any work performed by the water authority. Concrete cutting will be required at this location to install the water service piping, and Plumb-All will restore the concrete upon completion of the installation. If the distance from the meter to the fountain exceeds twenty feet, any additional water service piping required will be priced separately and will require written authorization from the City of Jonesboro prior to proceeding. As part of this scope, Plumb-All will remove the existing isolation valves serving each fountain and install new isolation valves in their place. The new valves will allow the city workers to isolate and winterize each fountain as needed to protect the units during cold weather months. Notes: Existing water supply lines will be inspected at time of installation. Any supply line repairs or replacements required beyond normal tie-in connections will be priced separately and will require written authorization from the City of Jonesboro prior to proceeding. If the distance from the water meter to the fountain at the Spring Street and Lee Street location exceeds twenty feet, additional water service piping will be billed at an agreed upon unit price.			
Total				\$42,900.00

This quote is valid for the next 30 days, after which values may be subject to change. All material is guaranteed to be as specified. All work to be completed in a professional manner according to standard practices. No guarantee is given or implied on any sewage, drainage, or repairs unless otherwise specified on this document. Plumb-All LLC, and its contractors and employees are not responsible for any unmarked utilities, failed soil, landscaping, and/or foreign objects in any part of the plumbing system(s). Removal of excess rock and/or debris from excavation sites will be subject to additional charges. Any alteration or deviation from above specifications involving extra costs will be executed only upon written orders and will become an extra charge over and above the estimate. All agreements contingent upon delays beyond our control. All deposits are non-refundable. This written contract supersedes any written or oral negotiations or agreements that are not contained in this document. Purchaser agrees to pay all costs of collection, including attorney's fees.
