Please answer the following questions honestly and thoughtfully:

Why are you interested in participating in this youth leadership program?

I am interested in continuing my participation in the Jonesboro Youth City Government because my experience this past year has shown me how impactful youth leadership can be. Being part of the program allowed me to better understand how local government works and how young people can have a voice in their community. Reapplying is important to me because I want to build on what I've already learned, take on more responsibility, and contribute even more to the program. I also want to continue growing as a leader while helping create a stronger, more engaged group of students.

What specific skills or qualities do you have that you believe make you a successful leader?

I believe one of my strongest qualities as a leader is my ability to take initiative while still listening to others. During my time in Youth City Government, I've learned that leadership is about collaboration, not just leading alone. I am dependable, organized, and committed to following through on my responsibilities. I also focus on making sure everyone feels included and encouraged to participate, because strong leadership involves bringing out the best in others, not just yourself.

What are your short and long - term goals? How do you see this program will help you reach these goals?

In the short term, my goal is to continue improving my leadership skills and become more active and impactful within Youth City Government. I want to take on more responsibility and help increase engagement among members. In the long term, I plan to pursue a career in healthcare and attend a strong university where I can continue developing both academically and professionally. Leadership and communication skills are essential in that field, and this program helps me build those skills in a real-world setting. It also teaches me how to work with different types of people and approach problems thoughtfully, which will benefit me in the future.

What do you believe are the most pressing issues or challenges facing young people today? What do you plan to do about it?

One of the biggest challenges facing young people today is a lack of engagement and motivation,

especially when it comes to school and community involvement. Many students feel disconnected or unsure of how they can make a difference. I've seen this firsthand, even within organizations. As someone reapplying to Youth City Government, I want to help address this by encouraging more participation and creating an environment where students feel heard and valued. I plan to be more active in supporting others, promoting involvement, and helping make meetings and projects more engaging. Even small changes can help people feel more connected and motivated to contribute.
