I Am interested in participativo in this youth leadership program because I am eager to develop my leadership capabilities and gain practical experience in influencing positive change within my community. My goals is to become a more impactful leader, and this program seems like an ideal environment to foster that growth

What specific skills or qualities do you have that you believe make you a successful leader?

I possess strong communication and problem-solving skills, which I believe are essential for successful leadership. I am adept at articulating ideas clearly, actively listening to others, and facilitating constructive dialogue. Furthermore, I approach challenges with an analytical and solution-oriented mindset, always seeking to understand the root causes and develop effective strategies. My ability to remain calm under pressure and my dedication to teamwork also contribute to my leadership environment where everyone feels valued and motivated.

What are your short and long - term goals? How do you see this program will help you reach these goals?

My short-term goal is to excel in my current academic pursuits and actively contribute to my school community through leadership roles. In the long term, I aspire to pursue a career where I can make a significant positive impact, potentially in public service or a field that addresses in societal issues. This program will help me reach these goals by providing me with advanced leadership training networking opportunities with influential individuals, and a platform to refine my strategic thinking. **What do you believe are the most pressing issues or challenges facing young people today?
What do you plan to do about it?**

One of the most pressuring issues facing young is the increasing prevalence of mental health challenges, exacerbated by social media pressures and academic stress. Another significant challenge is climate change and environmental degradation, which directly impacts their future. To address mental health, I plan to advocate for greater access to mental health resources in schools and communities, promoting open conversations and destigmatizing seeking help. Regarding climate change, I aim to educate my peers about sustainable practices and participate in local initiatives focused on environmental conservation and advocacy for policy changes
