This application is for a small assembly to hold bible study sessions, self-help meetings, and workshops in the MX-Mixed Use Zoning District. The property is located at 952 Dixie Drive, Jonesboro, Georgia 30236. The property is known as parcel #13209A A006 and is situated on .28 acres of land. The building was constructed in 1968.

RESULT: Approved with Conditions (Vote was unanimous)

MOVER: Mayor Pro-Tem Messick

SECONDER: Councilmember D. Dixon

Community Development Director Cameron stated that if the application were approved, the applicant would be required to undergo a life safety review, and the Building Official would need to inspect the building. She noted that conditions could be placed on the use, and that some variances might be necessary in accordance with the City's Zoning Ordinance. While the ordinance addresses parking and shared parking, it does not permit shared parking within a planned unit development. Director Cameron also mentioned that she would need to review the floor plan to determine the number of parking spaces that could be allowed.

- (1.) Must be established on a lot having a minimum area of one acre and a minimum frontage of 150 feet. The subject property is situated on .91 acres of land and has an address on file on N. Main Street. Although the lot is less than an acre, it has more than 200 ft of street frontage. The minimum area of one acre is approximately NOT met. However, the minimum frontage is met.
 - (2.) There must be stand-alone buildings (no planned centers, connected storefronts sharing a common wall, or lots with zero lot line development or shared parking). The subject property is a storefront strip shopping center that was constructed in 1968. The property is being leased as individual units for retail and other uses. Parking is shared among the tenants. This condition is not met. Therefore, the applicant must apply for variances to meet the conditions.
 - (3.) Must meet the requirements of article XIII, parking, loading, and interior circulation. The property was constructed in 1968. The subject site is incompatible with the current zoning district development standards. Therefore, this condition can be met. The applicant does not anticipate any conditions or events for loading or interior circulation needs.
 - (4.) Must meet applicable buffer requirements of article XV, landscaping and buffers. Again, the property was constructed in 1968. The entire lot is impervious surface. Therefore, the subject site is incompatible with the current zoning district development standards, and the condition cannot be met with the City's landscaping and planting improvements. Therefore, the applicant would need to apply for variances to meet the section requirements.
- B. Council to consider approval of Conditional Use Permit Application #25-CUP-004 (Section 86-185) submitted by Anthony Fultz. The application is for Hard Knock Motorcycle Club to hold meetings in the C-2 Highway Commercial Zoning District in the Gateway South. The property is located at 255 S. Main Street, Jonesboro, Georgia 30236. The subject property is known as parcel #06001C D003 and is situated on .30 acres of land. The building was constructed in 1978.

Staff recommended denial of the application, citing that the proposed use does not align with the objectives of the City's Gateway South District Plan.
