### Background

The playground equipment at Pioneer Ridge Elementary is in disrepair. Our facilities staff is doing all they can to keep it usable and relatively safe for students and the neighborhood, but it's lagging far behind where it should. Frankly, the equipment just needs to be replaced. Most of the community considers the school playground to be a town park, so we are hoping to work with the town to find a solution for the equipment.

### Cost

Our facilities team has reached out to a couple of different equipment suppliers, and they expect the total cost to be somewhere around \$800,000. Several bids from equipment suppliers are attached.

### Funding options

The district is working on a couple of grant options to fund the replacement of the playground equipment. One of them (GoCo) requires that the funds go to a municipality, not to a school district.

- If we apply for this grant, can the town and the district work together to administer the grant?

The other (Weld Trust) requires the district to have found partnerships with other entities to fund the request. Our PRE PTO has already raised about \$8,000 and is planning some other fundraisers, but you can imagine that would take more time than we realistically have.

- If we apply for this grant, are their funds available from the town to show commitment from community groups.

### Additional info

Currently there are no deadlines, as the district has not yet applied for grant funding. Both grants that we are considering have fall timelines, so applications would be placed in the next few months.
