Hello Ellen,

I apologize for not responding earlier.

We will not be able to submit a proposal for your project.

Our work backlog for our crews is out several months.

We also do not normally deal with lead paint removal.

Thank you for your consideration,

John Clark

Subject: Johnstown Colorado - Ground Storage Tank Repair

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Good evening,

I am looking to obtain a quote to perform work on the Town's north ground storage tank which is located at the Towns Water Treatment Facility. It is currently being bypassed due to turbidity levels coming out of the unit that occurred during the fluctuating tank level winter operation. The Town had an in-depth inspection performed (attached) to understand the viability and identify necessary repairs. I have more pictures that I can share as well.

In addition to the work identified in the inspection the Town wants to consider the following information:

1. Frozen standpipe replacement: Replace in kind or remove and replace with floating mixers.

2. A contingency for lead paint removal due to the Tanks age and adjacent tanks history.
3. Identify how quickly this work can be scheduled.

Please contact me with any questions. Ideally I need a quote by end of day Thursday.

Thanks,

Ellen Hilbig | Utilities Director
