Subject: RE: Water Tank Inspection Report - 2nd Quote Scope of Work

Unfortunately we have had some software issue with an update our IT department installed over the weekend so we are delayed.

My apologies but I can't guarantee to have you anything today. Possibly Wednesday. Again my apologies on the delay.

Thanks,
Patrick

Patrick –

I am following up on the status of the quote? What is your time frame?

Patrick,

I spoke to my Town Manager and we would like to receive a quote from Pittsburg Pipe even if it brings the proposal date to Monday.

Thank you for working with me on this.

Ellen,

Unfortunately, I won't be able to get a quote to you until Monday.

I'm going to sort out the inspection report and both Scope of Works the other vendors supplied (as they are not the same) and come up with my own recommendations based on the inspection report.

Also, our backlog in production is not great at this point and I would imagine 90 days + before we could mobilize for this work.

My apologies but we started the year with a huge backlog of work that couldn't get completed last fall/winter due to temperatures/weather and combined with work we received in this year it has pushed our maintenance projects out.

Thanks,
Patrick
