Hi Matt & Damien,

I have attached the bid for the Johnstown Veteran Memorial bronze sculpture project.

We wanted to make sure that you are both a part of this process and that we would make sure and have your approval when Carey after the clay is put on the enlargements. It will be important that you see the detail and see if there are any changes that need to be made. After we have approval from you that we can start this project we will have a contract for you with the total cost and production timeline. We would be happy to give a tour of our studio and explain the process and show different projects that we are working on. We would be happy to answer any question you might have.

Also, on the medallions for each branch of the Military, could we use the medallions that you have at the VFW to mold from? If we could use those to make the mold from it would help keep the cost down. The cost for 1 medallion to produce in bronze would be \$585.-\$600.

Please let us know if you would like to meet, we would be happy to answer any questions you may have.

With Warm Regards,

Amy Hosterman
