Honorable Mayor Lebsack and Town Councilmembers
FROM: Matt LeCerf, Town Manager
DATE: $\quad$ September 27, 2021 \& October 25, 2021
SUBJECT: FY 2022 - Proposed Preliminary Budget - Combined Work Session Memo

It is with great pleasure to provide the Mayor, Town Council, and the Community in compliance with CRS 29-1-105, with the FY 2022 proposed budget. I am hopeful that this important document represents the direction and objectives identified by the Council. We will move through the budget on a fund level basis providing an overview of the departments' requests and encourage a healthy dialogue on the items included. We welcome questions, comments, and the ensuing dialogue that will occur to provide a stronger understanding of the budget and the planned outcomes for FY 2022. First and foremost, required reporting is provided as part of the annual budget in compliance with both the Home Rule Charter of the Town of Johnstown and Section 17-218 of the Johnstown Municipal Code.

## Home Rule Charter Compliance - Article 12, Section 12.3

Article 12, Section 12.3 of the Home Rule Charter requires specific content be provided in the budget. While this is just the preliminary budget, aside from minor changes administratively and directed changes from Council, we intend for most items in this budget to remain fairly consistent with this preliminary budget. Items A-H in general are included in the information provided in this preliminary budget with the exception of the following notes:
a) Item $H$ : This item requests "An estimate of the amount required to be raised from an ad valorem property tax levy". For this section as detailed in the revenues of the general fund, we have provided a preliminary estimate of the revenues generated through ad valorem based on the current mill levy in place without a credit being issued.
b) Item I: This item requests "A statement of the outstanding securities and other debt and payment obligations of the Town, showing the debt redemption and interest requirements the authorized and outstanding and the condition of sinking funds, if any. In 2021, the Town issued Sewer Revenue Bonds for capital projects associated with the wastewater system. The PAR amount of these bond proceeds totaled $\$ 46,585,000$. A copy of the debt scheduled is attached with this memo.
c) Item J: Such other information as the Council may require. Town Staff can provide additional information as directed and requested by Council to the Town Manager.

## Section 17-218 Compliance

The Johnstown Municipal Code regarding the above section states the following shown below and requires an annual report to the council related to these matters not later than October 15 of each year.

Sec. 17-218. General provisions; applicability.
a) Term. This Article and the procedures established herein shall remain in effect unless and until repealed, amended or modified by the Board of Trustees in accordance with applicable State law and this Code, ordinances and resolutions.
b) Annual review.

1. At least once every year not later than October 15 of each year, beginning October 15, 2001, and prior to the [Town Council] adoption of the annual budget and capital improvements program, the Town Manager shall coordinate the preparation and submission of an annual report to the [Town Council] on the subject of impact fees.
2. The annual report may include any or all of the following:
a. Recommendations for amendments, if appropriate, to these procedures or to specific ordinances adopting impact fees for particular capital improvements;
Article XII, Sections 17-216-17-230 address the requirements and applications for impact fees. In FY 2020 no changes were made related to the impact fees. This was because of the fact that the last study conducted on the fees expired in FY 2019, running from FY 2015 - FY 2019. A current impact fee study update to the fee structures is currently nearing completion. We expect the final document sometime around the end of October. The construction cost index change from Q1 2020 to Q1 2021 in the Denver Metro was $+4.8 \%$. Given the increase of the index, it would be reasonable to assume the impact fee study may recommend an increase of 5-7\% from their current 2021 position.
b. Proposed changes to the Comprehensive Plan or plan elements and/or an applicable Capital Improvements Program, including the identification of additional capital improvement projects anticipated to be funded wholly or partially with impact fees; The Town is in the process of completing an updated and new comprehensive plan. Tentatively, the Comprehensive Plan is expected to be presented to Council in Q4 of 2021 for final consideration and adoption. This will represent a robust change to the existing Comprehensive Plan dated 2006.
The updated Capital Improvements Program (CIP) has been included with the preliminary budget and a brief overview of the CIP is described later below in this memorandum. The overall CIP 10 Year plan costs have gone up compared to last year's adopted plan by $25 \%$. The majority of this increase is attributed to water and sewer improvements. With the exception of enterprise funds which require reliance on their own funding from the delivery of services by the specific utility, projects listed in the CIP may use either exclusively general revenue within the identified funds, impact fee revenues, or a combination of both funding sources.
c. Proposed changes to the boundaries of impact fee districts, if applicable;

The Community That Cares www.TownofJohnstown.com

The following impact fees have no boundary restrictions with respect to their application on any development within the Town limits:

- Transportation Facilities Development Fee
- Police Facilities Development Fee
- Public Facilities Development Fee
- Park \& Recreation Facilities Development Fee
- Library Facilities Development Fee
- Drainage Impact Fee

At the beginning of 2021, a Regional Sewer Fee was implemented to offset the costs of the Town interceptor expansion project for all new wastewater flows that funnel into the Central Wastewater Treatment Plant. This fee is for new development only. Planned for consideration either later in 2021 or very early 2022 is an additional Transportation Enhancement Impact Fee to recover funds contributed by Johnstown for the Highway 402 and I-25 Interchange Improvements. In late 2019, an analysis was completed and presented to Council focusing on this improvement. The fee will apply to property in close proximity to the interchange and assessed on a tiered scale.
d. Proposed changes to impact fee schedules as set forth in the ordinances imposing and setting impact fees for particular capital improvements;
Impact Fees were not adjusted in FY 2021 due to the facts that the applicable and adopted Ordinance \#2015-139 which established a 5-year plan for increases for each of the impact fees expired at the end of FY 2020. As previously mentioned, an impact fee study update is currently underway and nearing completion. We expect the final document sometime around the end of October. As a general indicator, the construction cost index change from Q1 2020 to Q1 2021 in the Denver Metro was $+4.8 \%$. Given the increase of the construction index, it would be reasonable to assume the impact fee study may recommend an increase of 5-7\% from their current position. Any modifications recommended to the impact fees would be presented to Council for consideration in late FY 2021 or early FY 2022 and have an applicability time of FY 2022, if adopted.
e. Proposed changes to level of service standards for particular categories of capital improvements;
No specific changes to the level of service standards are planned in the various categories of capital improvements. If any changes were to occur, they would either be organically or due to the improvements that are planned in FY 2022. The specific changes would improve or increase the level of service provided, not to reduce or eliminate a specific service.
f. Proposed changes to any impact fee calculation methodology; No changes are proposed to the existing impact fees calculation methodology. Changes to the Town's ordinances related to the method of calculation would only be to clarify the current practice and application of the impact fee for residential and nonresidential development as applicable in the assessment of the impact fee.

The Community That Cares
www.TownofJohnstown.com
P: 970.587.4664 | 450 S. Parish Ave, Johnstown CO | F: 970.587.0141
g. Proposed changes to the population, housing, land use, persons per household or nonresidential development projections included in the impact fee report and upon which the impact fee amounts have been determined;
Northern Colorado is one of the fastest growing regions in Colorado and more than likely in the United States. Based on the current draft of the Comprehensive Plan, growth is conservatively estimated at $2.5 \%$ annually, but could be as great as $5 \%$. Our impact fees accurately reflect the growth estimates currently expected in Johnstown. Earlier this year, the new U.S. Census data was released. As a side note, the new updated figures are included with this document for informational purposes only at this time.
h. Other data, analysis or recommendations as the Town Administrator [Manager] may deem appropriate, or as may be requested by the Board of Trustees [Town Council]. The Town Manager is prepared for any additional information and analysis desired by the Council.

## Introduction

Overall, the budget portions presented this evening are in a strong and financially healthy position. This is due to the accountability and expectations created by the Citizens, coupled with the leadership of the Council. Accordingly, Town Administration recognizes and understands the importance of ensuring financial sustainability for the organization and the Community. Included in the budget within each fund are proposed revenues, expenditures, and ending fund balances. The budget presented ensures that services both internal and external are either maintained at their current level or improved for a better community experience. Below are brief highlights of some of the FY 2022 projects and outcomes proposed. We intend to walk through the entire budget highlighting other outcomes requested by Council beyond the operational components.

It is important to thank all of the Staff for their deliberate work on this budget especially the Finance Department as they work to navigate the requests and the available funding sources to ensure solvency in the organization. I am confident in communicating we are at a sustainable level financially for both this year and positioned very well for future fiscal years.

## General Fund

The General Fund has a healthy reserve balance. The fund provides for legislative, administrative, financial, police, planning, building services and maintenance, and some public works operation functions. Some of the highlights included in the general fund as a whole include the following items:

- In April 2020, the voters of Johnstown supported an exemption of applicability of SB152 which limits local governments' ability to pursue and financially contribute to Broadband Technology (Fiber). Accordingly, in 2021, the Town partnered with Berthoud, Mead and Milliken in a Phase I regional project for a Needs Assessment and Financial Feasibility Study. This study is expected to be completed by November 2021.

Based on the final report and findings in this study, we would anticipate the Council provide a high level, preferred direction towards enhancement of this core service. A small allocation of funding is proposed in FY 2022 to continue the implementation of this project.

- Phase II of the improvements to update the Town Council Chamber digital capabilities which have exceeded their useful life are planned in FY 2022. Phase II will replace the existing digital camera system for digital quality recording of the Council Meetings and make better use of the more advanced technology compared to the existing 2009 camera infrastructure.
- An allocation has been made for the architectural design for the expansion of the Police Department Headquarters. The biggest and most critical need is the accommodation of additional storage in the facility for evidence.
- Funding to complete the required Supplemental Environmental Projects in conjunction with the consent order with CDPHE is proposed. This is tentatively to include only the solar panel system on the Johnstown Recreation Center.
- Funding has been allocated for the DOLA Keep Main Street Open Grant. While we are still awaiting notification, we are cautiously optimistic. Should the grant not be approved or scaled back, funding for this project and program would be adjusted accordingly. Also, a Downtown Improvement Plan is being requested to continue to enhance the Historic Downtown.
- Funding for Johnstown Land Use Code rewrite which is directly linked to the completion of the comprehensive plan has been allocated predominantly in 2022. This project has been leveraged with a grant from DOLA with approximately $\$ 75,000$ in funding.

## Street Funding

The Town is committed to improving streets in our community which is a significant indicator of a quality community. The community also recognizes the value of a healthy transportation system and accordingly approved a $0.5 \%$ sales and use tax on goods sold in the community. Some of the notable items included in the FY 2022 Street \& Alley Budget include the following:

- A $\$ 1,000,000$ allocation for street maintenance for slurry seal, overlay projects, and other Preventative Maintenance Programming on our Town roadways. This is a $67 \%$ increase to the FY 2021 amount and can be directly attributed to the support of the community to approve the $0.5 \%$ transportation sales and use tax increase. We anticipate continuing this program at this level or higher based on increases to sales and use tax for the community.
- The most notable project this year in the Street Fund will be the improvements to Charlotte Avenue in Old Town. The improvements will include water, sewer and drainage improvements as well as a full reconstruction of the roadway. The Town plans to leverage this improvement with a DOLA Grant application which will be submitted in March 2022. Also, the Old Town drainage improvements which started in 2021 will be completed in 2022 with the street paving segment of these improvements. This adjustment is based on the expectation that weather will prohibit paving.

## Capital Facility Fund

The Capital Projects Fund derives its revenues from $1 \%$ use tax for all capital projects in the Town of Johnstown. In the past, this revenue was dedicated to the construction of a Library, the Senior/Community Center, and most recently the Recreation Center construction. In 2022, we anticipate and propose two major projects in the community with the use of these funds:

- As the construction along the I- 25 corridor continues, the budget includes the aesthetic improvements to the I-25 and Highway 60 Interchange. This project when completed, will be a key gateway to the Town and we believe will transform this interchange into a significant economic node for the region. While the project has been rolled over through multiple fiscal years, we are hopeful that in 2022 this project will be completed based on the progression of the I- 25 corridor improvements.
- The reorientation of the $2^{\text {nd }}$ Street Bridge adjacent to downtown has been a focal point for replacement and the award was approved in 2021. Plans to design and replace this bridge in a design-build delivery method over the Hillsborough Ditch is anticipated in $2021 / 2022$. Approximately $50 \%$ of the project cost has been rolled over into 2022.
- If necessary, a small allocation of funds has been made for a collaborative project with Loveland to commence design efforts for aesthetic improvements over the Highway 402 and I-25 Interchange.

## Storm Water Fund

In 2021, the majority of the storm water improvements are expected to be completed in and around the intersection of Estes and N. $1^{\text {st }}$ Place. This area has been a concern for poor drainage in Old Town and the improvements will convey storm water from a surface flow to piped inlets and mitigate impacts to property and homes in the area. As we look at this fund and consider additional improvements, we may need to revisit the current storm water impact fee and the current rates set for regular maintenance fees included in the utility bills, if we want to pursue other projects in the near future.

- The significant capital project in the Storm Water Fund are the improvements to Charlotte Avenue previously mentioned. Each of the utility funds and the street fund will be paying a corresponding portion based on the associated improvements of each scope of the entire work.
- Since the completion of the US Census Population Count, we are anticipating the State will make a formal request to the Town to establish a Small MS4 permitting standards and plan. In the case this event occurs, funds have been included to establish MS4 permit plans and standards for our community.

## Sewer Fund

The Sewer Fund has several major capital projects that will be continuing during FY 2022. While some of these are a result of the Consent Order with the Colorado Department of Public

Health and Environment, others are of a general need to accommodate the anticipated growth in the community. To facilitate these capital projects, the Town in 2021 issued roughly $\$ 55$ million in bonds to make the improvements now. Some of the project highlights include the following:

- Construction will continue at the Low Point WWTP expansion. This upgrade will meet the permit limits of today and tomorrow while ensuring the additional capacity (from 0.5 MGD to 1.5 MGD ) constructed to meet the growth of tomorrow for approximately 20 years or 4,600 single family equivalents (SFE's). This construction will be completed tentatively in early 2023. The budgeted amount is $\$ 13$ million in 2022.
- The collection system construction in areas north and south of Highway 60 began in 2021 with Phase I of the Central Interceptor. Construction and design elements will continue in 2022 including the Phase II Central Interceptor and the Northern Interceptor. The allocation for these elements to construct critical capacity needs is approximately $\$ 25$ million.
- Design engineering will continue in 2022 prior to construction on a new Central WWTP in late 2022 or early 2023. This phase of the design is originally budgeted at $\$ 1.8$ million and approximately \$700,000 has been allocated for 2022.

## Water Fund

The Water Fund has several critical projects that will be continuing from 2021 as well as new projects which are necessary in 2022. While we were successful in improving the taste and odor of the water with the addition of the GAC system, we have other needs that address more effective distribution and supply delivery needs in the system. The specific projects that will assist with water demands on the system (especially during the summer season of high-water usage) will including the following:

- Water Tower Project and Trunk Line Construction will begin in 2021. The project is expected to last the entire fiscal year and will improve the demand on the system during the summer season when water usage spikes significantly. The water tower is designed for a tank capacity of 1.5 million gallons. The water line expansion is estimated at 37,000 linear feet.
- Design engineering which just recently kicked off in 2021, will continue in 2022 to construct an expansion of our water treatment plant. Currently the plant can produce roughly 6 million gallons per day (MGD). The outlook and objective, is to establish a water plant that has the ability to produce 12 MGD to better meet peak demand requirements. Construction is tentatively planned for late FY 2022 subject to Council approval.
- A raw water trunk line is also going to be an essential part to building additional capacity in the water system. Accordingly, funds have been allocated for the purposes of easement acquisition as we focus on the optimal route to bring additional raw water to the treatment plant.

## 10 Year Capital Improvement Plan

The Town's 10 Year CIP is also included in this preliminary budget. Compared to the FY 2021 CIP document approved by Council, the 10 Year CIP has increased by $25 \%$. Roughly $95 \%$ of the increase can be directly attributed to the water and wastewater improvements planned over the next 3 fiscal years and financial estimates becoming clearer as the planning and design components progress in their respective stages. Following these capital improvements, we anticipate capital project spending to decline and level off at a more reasonable rate compared to FY 2022 - FY 2024 assuming the projects are completed in these years as anticipated.

## Staffing \& Reorganization

During the Q4 of 2021 and as a result of the vacancy of the Public Works Director we will be reorganizing the Public Works Department. The change will result in two department level positions - a Utility Director and a Public Works Director. The Utility Director will oversee all functions within the water and sewer plants and the respective distribution and collection systems. The Public Works Director will oversee all other operations generally allocated to public works, including but not limited to streets, parks, storm water, facility maintenance, and cemetery. These changes have necessitated additional personnel to improve the delivery of services to the community while also minimizing the inefficient resource distribution to manage and operate under the current organizational structure. A more detailed discussion is anticipated for the Utility operations as we have had several years of concerning issues related to compliance that may merit more comprehensive changes.
Based on this reorganization and to focus properly on the need for additional resources at the Town and meet the needs of both internal and external customers, the listed additional staff members are recommended for FY 2022. We are comfortable with this increase in personnel while ensuring the long-term financial position of the Town.
