AGENDA ITEM DESCRIPTION:

This design agreement between the Town and D2C architects is a breakdown of costs for the process from pre design to bidding and negotiation of construction contracts for the proposed expansion of the police department.

The police department's evidence storage space is near capacity and will be filled to capacity within the next year at current rates. To maintain compliance with State of Colorado and Federal Statutes that apply to evidence storage, this expansion is critical.

Concurrently, the anticipated growth of personnel within the police department, we no longer have enough office space, training room space or public access meeting room space to maintain efficient operations.
