I. INTRODUCTION

A. Intent and Purpose.

The Town intends that this Service Plan grant authority to the District to provide for the planning, design, acquisition, construction, installation and financing of Public Improvements for the use and benefit of all anticipated inhabitants and taxpayers of the District. The Town and the District acknowledge that the District is an independent unit of local government, separate and distinct from the Town, and, except as may otherwise be provided for by State or local law, this Service Plan or an intergovernmental agreement with the Town, the District's activities are subject to review by the Town only insofar as the activities may deviate in a material manner from the requirements of the Service Plan.

B. Need for the District.

There are currently no other governmental entities, including the Town, located in the immediate vicinity of the District that consider it desirable, feasible or practical to undertake the planning, design, acquisition, construction, installation and financing of the Public Improvements or the ownership, operation and maintenance of the Public Improvements that are not accepted for ownership, operation and maintenance by the Town or another entity. Formation of the District is therefore necessary in order for the Public Improvements to be provided in the most economic manner possible.

C. Town's Objective.

The Town's objective in approving the Service Plan is to authorize the District to provide for the planning, design, acquisition, construction, installation and financing of the Public Improvements from the proceeds of Debt that may be issued by the District and to provide for the ownership, operation and maintenance of any Public Improvement not otherwise accepted for ownership, operation or maintenance by the Town or another entity. Debt is expected to be repaid by an ad valorem property tax no higher than the Maximum Debt Mill Levy and other legally available revenues of the District. Debt issued within these parameters and, as further described in the Financial Plan, is intended to insulate property owners from excessive tax and financial burdens and result in a timely and reasonable repayment. Public Improvements costs that cannot be funded within these parameters are not costs to be paid by the District.

The Town intends to authorize the District to have the ability to plan, design, acquire, construct, install and finance the initial Public Improvements necessary to develop the Project and seeks the timely payment of Debt related to those initial Public Improvements so that the financial burden on End Users is minimized. The District shall be required to obtain authorization of the Town, in the form of an intergovernmental agreement, prior to issuing Debt for redevelopment of an existing Public Improvement.

Unless the District has operational responsibilities for any of the Public Improvements, the Town intends that the District dissolve upon payment or defeasance of all Debt incurred or upon a court determination that adequate provision has been made for the payment of all Debt and for continuation of any operations.

The Service Area consists of approximately 157.821 acres of Residential Property. The current assessed valuation of the Service Area is approximately \$0.00 for purposes of this Service Plan and, at build out, is expected to be approximately \$11,160,075, and is expected to be sufficient to reasonably discharge the Debt under the Financial Plan. The population of the District at build-out is estimated to be approximately one thousand fifty (1,050) people.

The Town's approval of this Service Plan does not imply approval of the development of a specific area within the District, nor does it imply approval of the number of residential units that may be identified in this Service Plan.

V. DESCRIPTION OF PROPOSED POWERS, IMPROVEMENTS AND SERVICES

A. Powers of the District and Service Plan Amendment.

The District shall have the power and authority to provide the Public Improvements and operation and maintenance of the Public Improvements within and without the boundaries of the District as such power and authority is described in the Special District Act and in other applicable statutes, common law and the Constitution, subject to the limitations set forth herein.

1. Operations and Maintenance Limitation. The purpose of the District is to provide for the planning, design, acquisition, construction, installation and financing of the Public Improvements for the use and benefit of all anticipated inhabitants and taxpayers of the District. The District shall only operate and maintain those Public Improvements that are not accepted for ownership, operations and maintenance by the Town or other appropriate entity in a manner consistent with the Approved Development Plan and other rules and regulations of the Town and the Town Code.

2. Trails and Amenities. The District may own, operate and maintain trails and related amenities within the District. All parks and trails shall be open to the general public, including Town residents who do not reside in the District, free of charge. Any fee imposed by the District for access to recreation improvements owned by the District, other than parks and trails, shall not result in Town residents who reside outside the District paying a user fee that is greater than, or otherwise disproportionate to, amounts paid by residents of the District and shall not result in the District's residents subsidizing the use by non-District's residents. The District shall be entitled to impose a reasonable administrative fee to cover additional expenses associated with use of District recreational improvements, other than parks and trails, by Town residents who do not reside in the District to ensure that such use is not subsidized by the District's residents.

3. Fire Protection, Ambulance and Emergency Services Limitation. The District shall not be authorized to plan for, design, acquire, construct, install, relocate, redevelop, finance, operate or maintain fire protection facilities or services, unless such facilities and services are provided pursuant to an intergovernmental agreement with the Town. The authority to plan for, design, acquire, construct, install, relocate, redevelop or finance fire hydrants and related improvements installed as part of the water system shall not be limited by this provision. The District shall not be authorized to provide for ambulance or emergency medical services unless the provision of such service is approved by the Town in an intergovernmental agreement.

4. Television Relay and Translation Limitation. The District shall not be authorized to plan for, design, acquire, construct, install, relocate, redevelop, finance, operate or maintain television relay and translation facilities and services, other than for the installation of conduit as a part of a street construction project,

unless such facilities and services are provided pursuant to an intergovernmental agreement with the Town.

5. Telecommunication Facilities. No telecommunication facilities owned, operated or otherwise allowed by the District shall affect the ability of the Town to expand its public safety telecommunication facilities or impair the Town's existing telecommunication facilities.

6. Solid Waste Collection Limitation. The District shall not provide for collection and transportation of solid waste, other than waste generated by the activities of the District, unless such services are provided pursuant to an intergovernmental agreement with the Town.

7. Transportation Limitation. The District shall not provide transportation services unless such services are provided pursuant to an intergovernmental agreement with the Town; however, nothing in this subsection shall prohibit the District from providing streets and traffic and safety control services.

8. New Powers. If, after the Service Plan is approved, the General Assembly of the State grants new or broader powers for metropolitan districts, to the extent permitted by law, any or all such powers shall be deemed to be a part hereof and available to be exercised by the District only following written approval by the Town, subject to the Town's sole discretion.

9. Construction Standards Limitation. The District shall ensure that the Public Improvements are designed and constructed in accordance with the standards and specifications of the Town and of other governmental entities having proper jurisdiction. The District shall obtain the Town's approval of civil engineering plans and applicable permits for construction and installation of Public Improvements prior to performing such work.

10. Zoning and Land Use Requirements; Sales and Use Tax. The District shall be subject to all of the Town's zoning, subdivision, building code and other land use requirements. The District shall not exercise any exemption from Town sales or use tax, whether directly or indirectly.

11. Growth Limitations. The District acknowledges that the Town shall not be limited in implementing Town Council or voter approved growth limitations, even though such actions may reduce or delay development within the District and the realization of District's revenue.

12. Conveyance. The District agrees to convey to the Town, at no expense to the Town and upon written notification from the Town, any real property owned by the District that is necessary, in the Town's sole discretion, for any Town capital improvement projects for transportation, utilities or drainage. The District shall, at no expense to the Town and upon written notification from the Town, transfer to the Town all rights-of-way, fee interests and easements owned by the District that the Town determines are necessary for access to and

operation and maintenance of the Public Improvements to be owned, operated and maintained by the Town, consistent with an Approved Development Plan.

13. Privately Placed Debt Limitation. Prior to the issuance of any Privately Placed Debt, including but not limited to any Developer Debt, the District shall obtain the certification of an External Financial Advisor approved by the Town, in form substantially as follows:

We are [I am] an External Financial Advisor within the meaning of the District's Service Plan.

We [I] certify that (1) the net effective interest rate (calculated as defined in Section 32-1-103(12), C.R.S.) to be borne by [insert the designation of the Debt] does not exceed a reasonable current [tax-exempt] [taxable] interest rate, using criteria deemed appropriate by us [me] and based upon our [my] analysis of comparable high yield securities; and (2) the structure of [insert designation of the Debt], including maturities and early redemption provisions, is reasonable considering the financial circumstances of the District.

The District shall submit written notice to the Town Manager of the name of the proposed External Financial Advisor which shall either be approved or objected to by the Town within twenty (20) days of the submittal of such written notice to the Town Manager. If the Town Manager does not object to such selection within the twenty (20) day period, the Town Manager's approval shall be deemed to have been given to the District retaining the External Financial Advisor named in the written notice.

Within ten (10) days subsequent to the issuance of Privately Placed Debt, the District shall provide the Town with copies of the relevant Debt documents, the External Financial Advisor Certification and the Bond Counsel Opinion addressed to the District and the Town regarding the issuance of the Debt.

14. Inclusion Limitation. The District may include all or a portion of the property with the Inclusion Area Boundaries only after approval by the Town of an Approved Development Plan applicable to the property to be included, and shall provide written notice to the Town of all such inclusions concurrently therewith. The District shall not include within its boundaries any property outside the Inclusion Area Boundaries without the prior written consent of the Town. The District shall only include within its boundaries property that has been annexed to the Town and no portion of any of the District shall ever consist of property not within the Town's corporate boundaries.

15. Debt Limitation. Unless otherwise approved in an intergovernmental agreement with the Town, on or before the effective date of approval by the Town Council of a final subdivision plat for Johnstown Farm Filing 3, the District shall not: (a) issue any Debt; (b) impose a mill levy for the payment of Debt by direct imposition or by transfer of funds from the operating fund to the Debt service funds; or (c) impose and collect any Development Fees.

16. Maximum Debt Authorization. The District shall not issue Debt in excess of Twelve Million Five Hundred Thousand Dollars (\$12,500,000). Refunded Debt, wherein the initial debt issuance counted toward the Maximum Debt Authorization shall not count against the Maximum Debt Authorization set forth herein.

17. Recurring Fee Limitation. The District may impose and collect Recurring Fees for administrative, operations and maintenance expenses and for services, programs or operations and maintenance of facilities furnished by the District. Any Recurring Fees for administrative, operations and maintenance expenses not specifically set forth in the Financial Plan, including a subsequent increase in such Recurring Fees, shall be subject to review and approval by the Town, either administratively or by formal action of Town Council, at the discretion of the Town Manager. If the Town does not respond to a request for the imposition of the Recurring Fee or an increase in such Recurring Fee within forty-five (45) days of receipt of a written request from the District, the Town shall be deemed to have approved the ability of the District to impose or increase the Recurring Fee as described in the request. Any Recurring Fees imposed or increased for operation and maintenance expenses without approval as set forth herein shall constitute a material departure from the Service Plan. The revenue from a Recurring Fee shall not be used to pay for Debt.

18. Monies from Other Governmental Sources. The District shall not apply for or accept Conservation Trust Funds, Great Outdoors Colorado Funds or other funds available from or through governmental or non-profit entities for which the Town is eligible to apply, except pursuant to an intergovernmental agreement with the Town. This Section shall not apply to specific ownership taxes which shall be distributed to and a revenue source for the District without any limitation.

19. Consolidation Limitation. The District shall not file a request with any Court to consolidate with another Title 32 district without the prior written consent of the Town.

20. Bankruptcy Limitation. It is expressly intended that all of the limitations contained in this Service Plan, including, but not limited to, those pertaining to the Maximum Debt Mill Levy and the Recurring Fees, that have been established under the authority of the Town to approve a Service Plan with conditions pursuant to Section 32-1-204.5, C.R.S.:

(a) Shall not be subject to set-aside for any reason or by any court of competent jurisdiction, absent an amendment to the Service Plan; and

(b) Are, together with all other requirements of Colorado law, included in the “political or governmental powers” reserved to the State under the U.S. Bankruptcy Code (11 U.S.C.) Section 903, and are also included in the “regulatory or electoral approval necessary under applicable

nonbankruptcy law” as required for confirmation of a Chapter 9 Bankruptcy Plan under Bankruptcy Code Section 943(b)(6).

The filing of any bankruptcy petition by the District shall constitute, simultaneously with such filing, a material departure of the express terms of this Service Plan, and thus an express violation of the approval of this Service Plan.

21. Water Rights/Resources Limitation. The District shall not acquire, own, manage, adjudicate or develop water rights or resources except pursuant to an intergovernmental agreement with the Town.

22. Eminent Domain Limitation. Absent the prior written approval of the Town, the District shall not exercise its statutory power of eminent domain or dominant eminent domain for the purpose of condemning property outside of the Service Area. Additional approval from the Town shall not be required prior to the District’s exercise of its statutory power of eminent domain or dominant eminent domain with respect to property within the Service Area. In no event shall the District exercise its statutory power of dominant eminent domain to condemn property owned by the Town.

23. Covenant Enforcement and Design Review Services. The District shall have the power, but not the obligation, to provide Covenant Enforcement and Design Review Services within the District in accordance with the Colorado Statutes as they are amended from time to time. The Town shall not bear any responsibility for Covenant Enforcement and Design Review Services within the boundaries of the District. The Town’s architectural control, design review and other zoning, land use, development, design and other controls are separate requirements that must be met in addition to any similar controls or services undertaken by the District.

24. Special Improvement Districts. The District shall not be entitled to create a special improvement district pursuant to Section 32-1-1101.7, C.R.S., unless otherwise provided pursuant to an intergovernmental agreement with the Town.

25. Reimbursement Agreement with Adjacent Landowners. If the District utilizes reimbursement agreements to obtain reimbursements from adjacent landowners for costs of improvements that benefit the third-party landowners, such agreements shall be done in accordance with Town Code. Any and all resulting reimbursements received for such improvement shall be used to re-pay the cost of the Public Improvement that is the subject of the reimbursement agreement or shall be deposited in the District’s debt service fund and used for the purpose of retiring Debt. The District shall maintain an accurate accounting of the funds received and disbursed pursuant to reimbursement agreements.

26. Land Purchase Limitation. Proceeds from the sale of Debt and other revenue of the District may not be used to pay the Developer for the acquisition from the Developer of any real property, easements or other interests required to

be dedicated for public use by annexation agreements, Approved Development Plans, the Town Code or other development requirements, unless otherwise provided pursuant to an intergovernmental agreement with the Town. Examples of ineligible reimbursements include, but are not limited to: the acquisition of rights of way, easements, water rights, land for public drainage, parkland, or open space, unless separate consent is given by resolution of the Town Council.

27. Developer Reimbursement of Public Improvement Related Costs. Prior to the reimbursement to the Developer for costs incurred in the organization of the District, or for funds expended on the District's behalf related to the Public Improvements, or for the acquisition of any part of the Public Improvements, the District shall receive: a) the report of an engineer retained by the District, independent of the Developer and licensed in Colorado verifying that, in such engineer's professional opinion, the reimbursements for the costs of the Public Improvements that are the subject of the reimbursement or acquisition, including the construction costs and the soft costs, but excluding the accounting and legal fees, are, in such engineer's opinion, reasonable and are related to the provision of the Public Improvements or are related to the District's organization; and b) the report of an accountant retained by the District, independent of the Developer and licensed in Colorado verifying that, in such accountant's professional opinion, the reimbursement for the accounting and legal fees that are the subject of the reimbursement or acquisition, are, in such accountants opinion, reasonable and related to the Public Improvements or the District's organization. Upon request, the District shall provide the reports to the Town.

28. Developer Reimbursement of Administration, Operations and Maintenance Related Costs. Prior to the reimbursement to the Developer for costs incurred or for funds expended on behalf of the District related to the administration of the District or the operation and maintenance of the Public Improvements, the District shall receive the report of an accountant retained by the District, who is independent of the Developer and licensed in Colorado, verifying that, in such accountant's professional opinion, the reimbursement of the funds advanced for such administration, operations or maintenance costs, are, in such accountant's opinion, receivable and related to the administration, operations or maintenance of the District or the Public Improvements. Upon request, the District shall provide the report to the Town.

29. Board Meetings and Website Limitations. Once an End User owns or resides in property in the Service Area, the District's Board meeting(s) shall be conducted within the boundaries of the Town of Johnstown. The District shall establish and maintain a public website and the District's website shall include the name of the Project or a name that allows property owners and residents of the District to readily locate the District online and shall also include an updated street map for those properties within the Service Area that have constructed streets that are open for public use. In addition, the District shall post a copy of each call for nominations, required pursuant to Section 1-13.5-501, C.R.S., on the District's website.

30. Financial Review. The Town shall be permitted to conduct periodic reviews of the financial powers of the District in the Service Plan in the manner and form provided in Section 32-1-1101.5, C.R.S. As provided in the statute, the Town may conduct the first financial review in fifth calendar year after the calendar year in which a special district's ballot issue to incur general obligation indebtedness was approved by its electors. After such fifth calendar year and notwithstanding the provisions of the statute, the Town may conduct the financial review at any time, by providing sixty (60) days written notice to the District, except that the Town may not conduct a financial review within sixty (60) months of the completion of its most recent financial review. The Town's procedures for conducting a financial review under this Paragraph, and the remedies available to the Town as a result of such financial review, shall be identical to those provided for in Section 32-1-1101.5(2), C.R.S. The District shall be responsible for payment of the Town consultant and legal and administrative costs associated with such review, and the Town may require a deposit of the estimated costs thereof.

B. Service Plan Amendment Requirement.

This Service Plan has been designed with sufficient flexibility to enable the District to provide required services and facilities under evolving circumstances without the need for numerous amendments. Actions of the District which violate the limitations set forth in this Service Plan shall be deemed to be material modifications to this Service Plan and the Town shall be entitled to all remedies available under State and local law to enjoin such actions of the District, including the remedy of enjoining the issuance of additional authorized but unissued debt, until such material modification is remedied.

C. Capital Plan.

The District shall have authority to provide for the planning, design, acquisition, construction, installation and financing of the Public Improvements within and without the boundaries of the District. A Capital Plan, attached hereto as **Exhibit E**, includes: (1) a list of the Public Improvements to be developed by the District, supported by a engineering or architectural survey; (2) a good faith estimate of the cost of the Public Improvements; and (3) a pro forma capital expenditure plan correlating expenditures with development. The Public Improvements described in the Capital Plan may be modified in an Approved Development Plan or an intergovernmental agreement with the Town, and may differ from the Capital Plan without constituting a material modification of this Service Plan. To the extent that the Capital Plan sets forth the timing of the construction of the Public Improvements, such timing may also deviate from the Capital Plan without constituting a material modification of this Service Plan. As shown in the Capital Plan, the estimated cost of the Public Improvements is approximately Seventeen Million Three Hundred Seventy Five Dollars \$17,000,375. Costs of required Public Improvements that cannot be financed by the District within the parameters of this Service Plan and the financial capability of the District are expected to be financed by the Developer of the Project.

VI. FINANCIAL PLAN

A. General.

The District shall be authorized to provide for the planning, design, acquisition, construction, installation and financing of the Public Improvements from its revenues and by and through the proceeds of Debt to be issued by the District. The Financial Plan for the District shall be to issue such Debt as the District is reasonably able to pay from revenues derived from the Maximum Debt Mill Levy and other legally available revenues. The total Debt that the District shall be permitted to issue shall not exceed the Maximum Debt Authorization, Twelve Million Five Hundred Thousand Dollars (\$12,500,000), and shall be permitted to be issued on a schedule and in such year or years as the District determines shall meet the needs of the Financial Plan referenced above and phased to serve development as it occurs. All Debt issued by the District may be payable from any and all legally available revenues of the District, as set forth in this Service Plan, including ad valorem property taxes or Development Fees.

The Financial Plan, prepared by Piper Sandler & Co., and attached hereto as **Exhibit F**, sets forth (i) how the Public Improvements are to be financed; (ii) how Debt may be incurred; and (iii) the estimated operating revenue derived from property taxes for the District. The Maximum Debt Authorization is supported by the Financial Plan.

B. Maximum Voted Interest Rate, Maximum Underwriting Discount, Maximum Interest Rate on Developer Debt.

The interest rate on any Debt is expected to be the market rate at the time the Debt is issued. In the event of a default, the proposed maximum interest rate on any Debt is not to exceed twelve percent (12%). The proposed maximum underwriting discount shall be three percent (3%). Debt, when issued, shall comply with all relevant requirements of this Service Plan, State law and Federal law as then applicable to the issuance of public securities. Failure to observe the requirements established in this paragraph shall constitute a material modification under the Service Plan.

The interest rate on Developer Debt shall not exceed the lesser of the current Bond Buyer 20-Bond GO index plus four percent (4%) or twelve percent (12%). Developer Debt shall be subordinate to other Debt of the District and shall be subject to the Developer Debt Mill Levy Imposition Term provided in Section VI.D.1 below.

C. Mill Levies.

1. Maximum Debt Mill Levy. The Maximum Debt Mill Levy shall be forty (40) mills subject to a Gallagher Adjustment. For the portion of any aggregate Debt which is equal to or less than fifty percent (50%) of the District's assessed valuation, either on the date of issuance or at any time thereafter, the mill levy to be imposed to repay such portion of Debt shall not be subject to the Maximum Debt Mill Levy if a majority of the Board of the District are End Users, and such District Board authorizes such a Maximum Debt Mill Levy "roll-off" through the issuance of Debt or refunding thereof, and, as a result, the mill levy may be such amount as is necessary to pay the Debt service on such Debt, without limitation of rate.

2. Maximum Operations and Maintenance Mill Levy. The Maximum Operations and Maintenance Mill Levy shall be a mill levy the District is permitted to impose for

payment of the District’s administrative, operations and maintenance costs, which shall include, but not be limited to, the funding of operating reserves and sufficient ending fund balances to assure sufficient cash flow to fund expenses as they come due. The Maximum Operations and Maintenance Mill Levy of the District shall be ten (10) mills, subject to a Gallagher Adjustment, and shall at all times not exceed the maximum mill levy necessary to pay those expenses. If a majority of the Board of Directors of the District are End Users, such Board may eliminate the Maximum Operations and Maintenance Mill Levy.

3. Subdistricts. To the extent that the District is composed of or subsequently organized into one or more subdistricts as permitted under Section 32-1-1101, C.R.S., the term “District” as used in Section VI.C.2 above shall be deemed to refer to the District and to each such subdistrict separately, so that each of the subdistricts shall be treated as a separate, independent district for purposes of the application of this definition.

D. Mill Levy Imposition Term.

1. Developer Debt Mill Levy Imposition Term. Developer Debt shall expire and be forgiven twenty (20) years after the date of the initial imposition by the District of an ad valorem property tax to pay any Debt, unless otherwise provided pursuant to an intergovernmental agreement with the Town. Refunding Bonds shall not be subject to this Developer Debt Mill Levy Imposition Term so long as such Refunding Bonds are not owned by the Developer or by a party related to the Developer. Developer Debt shall not have any call protection.

2. Maximum Debt Mill Levy Imposition Term: In addition to the Developer Debt Mill Levy Imposition Term, the District shall not impose a levy for repayment of any and all Debt (or use the proceeds of any mill levy for repayment of Debt) on any single property developed for residential uses which exceeds forty (40) years after the year of the initial imposition of such mill levy unless a majority of the Board of the District imposing the mill levy are End Users and have voted in favor of a refunding of a part or all of the Debt for a term exceeding the Maximum Debt Mill Levy Imposition Term and such refunding will result in a net present value savings as set forth in Section 11-56-101, C.R.S. et seq.

E. Debt Instrument Disclosure Requirement.

In the text of each Bond and any other instrument representing and constituting Debt, the District shall set forth a statement in substantially the following form:

By acceptance of this instrument, the owner of this Bond agrees and consents to all of the limitations in respect of the payment of the principal of and interest on this Bond contained herein, in the Resolution of the District authorizing the issuance of this Bond and in the Service Plan for creation of the District.

Similar language describing the limitations with respect to the payment of the principal of and interest on Debt set forth in this Service Plan shall be included in any document used for the offering of the Debt for sale to persons, including, but not limited to, the Developer of property within the boundaries of the District.

F. Notice of Debt to Town.

In addition to the other requirements of this Service Plan, at least fifteen (15) business days prior to the issuance of any Debt, the District shall submit to the Town a copy of the resolution approving the Debt.

Within ten (10) business days subsequent to the issuance of Debt, the District shall provide the following to the Town: (i) the marketing documents that have been published; (ii) the Bond Counsel Opinion addressed to the District regarding the issuance of the Debt; and (iii) a certification of the Board of the District that the Debt is in compliance with the Service Plan (if such certification is not already contained in the resolution approving the Debt).

G. Security for Debt.

The District shall not pledge any revenue or property of the Town as security for the indebtedness set forth in this Service Plan. The Town's approval of this Service Plan shall not be construed as a guarantee by the Town of payment of any of the District's obligations; nor shall anything in the Service Plan be construed so as to create any responsibility or liability on the part of the Town in the event of default by the District in the payment of any such obligation.

H. District Operating Costs.

The estimated cost of engineering services, legal services and administrative services, together with the estimated cost of the District's organization and initial operations, are anticipated to be One Hundred Thousand Dollars (\$100,000), which will be eligible for reimbursement from Debt proceeds.

In addition to the capital costs of the Public Improvements, the District will require operating funds for administration of the District and to plan and cause the Public Improvements to be constructed and maintained. The first year's operating budget is estimated to be One Hundred Fifty Thousand Dollars (\$150,000) which is anticipated to be derived from property taxes and other revenues.

VII. ANNUAL REPORT

A. General.

The District shall be responsible for submitting an annual report to the Town no later than August 1st of each year following the year in which the Order and Decree creating the District has been issued (the "report year"). The Town reserves the right, pursuant to Section 32-1-207(3)(c), C.R.S., to request annual reports from the District beyond five years after the District's organization.

AND
JOHNSTOWN FARMS EAST METROPOLITAN DISTRICT

THIS AGREEMENT is made and entered into as of this ___ day of _____, _____, by and between the TOWN OF JOHNSTOWN, a home-rule municipal corporation of the State of Colorado (“Town”), and JOHNSTOWN FARMS EAST METROPOLITAN DISTRICT, a quasi-municipal corporation and political subdivision of the State of Colorado (the “District”). The Town and the District are collectively referred to as the “Parties.”

RECITALS

WHEREAS, the District was organized to provide those services and to exercise powers as are more specifically set forth in the District’s Service Plan approved by the Town on _____ (“Service Plan”); and

WHEREAS, the Service Plan makes reference to the execution of an intergovernmental agreement between the Town and the District; and

WHEREAS, the Town and the District have determined it to be in the best interests of their respective taxpayers, residents and property owners to enter into this Intergovernmental Agreement (“Agreement”).

NOW, THEREFORE, in consideration of the covenants and mutual agreements herein contained, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereto agree as follows:

COVENANTS AND AGREEMENTS

1. Operations and Maintenance Limitation. The District shall only operate and maintain those Public Improvements that are not accepted for ownership, operations and maintenance by the Town or other appropriate entity in a manner consistent with the Approved Development Plan and other rules and regulations of the Town and the Town Code.

2. Trails and Amenities. The District may own, operate and maintain trails and related amenities within the District. All parks and trails shall be open to the general public, including Town residents who do not reside in the District, free of charge. Any fee imposed by the District for access to recreation improvements owned by the District, other than parks and trails, shall not result in Town residents who reside outside the District paying a user fee that is greater than, or otherwise disproportionate to, amounts paid by residents of the District and shall not result in the District’s residents subsidizing the use by non-District’s residents. The District shall be entitled to impose a reasonable administrative fee to cover additional expenses associated with use of District recreational improvements, other than

parks and trails, by Town residents who do not reside in the District to ensure that such use is not subsidized by the District's residents.

3. Fire Protection, Ambulance and Emergency Services Limitation. The District shall not be authorized to plan for, design, acquire, construct, install, relocate, redevelop, finance, operate or maintain fire protection facilities or services, except pursuant to an amendment to this Agreement or a subsequent intergovernmental agreement with the Town. The authority to plan for, design, acquire, construct, install, relocate, redevelop or finance fire hydrants and related improvements installed as part of the water system shall not be limited by this provision. The District shall not be authorized to provide for ambulance or emergency medical services, except pursuant to an amendment to this Agreement or a subsequent intergovernmental agreement with the Town.

4. Television Relay and Translation Limitation. The District shall not be authorized to plan for, design, acquire, construct, install, relocate, redevelop, finance, operate or maintain television relay and translation facilities and services, other than for the installation of conduit as a part of a street construction project, except pursuant to an amendment to this Agreement or a subsequent intergovernmental agreement with the Town.

5. Telecommunication Facilities. No telecommunication facilities owned, operated or otherwise allowed by the District shall affect the ability of the Town to expand its public safety telecommunication facilities or impair the Town's existing telecommunication facilities.

6. Solid Waste Collection Limitation. The District shall not provide for collection and transportation of solid waste, other than waste generated by the activities of the District, except pursuant to an amendment to this Agreement or a subsequent intergovernmental agreement with the Town.

7. Transportation Limitation. The District shall not provide transportation services, except pursuant to an amendment to this Agreement or a subsequent intergovernmental agreement with the Town; however, nothing in this subsection shall prohibit the District from providing streets and traffic and safety control services.

8. New Powers. If, after the Service Plan is approved, the General Assembly of the State grants new or broader powers for metropolitan districts, to the extent permitted by law, the District agrees that it shall not exercise such powers, unless it receives written approval from the Town.

9. Construction Standards Limitation. The District shall ensure that the Public Improvements are designed and constructed in accordance with the standards and specifications of the Town and of other governmental entities having proper jurisdiction. The District shall obtain the Town's approval of civil engineering

plans and applicable permits for construction and installation of Public Improvements prior to performing such work.

10. Zoning and Land Use Requirements; Sales and Use Tax. The District shall be subject to all of the Town's zoning, subdivision, building code and other land use requirements. The District shall not exercise any exemption from Town sales or use tax, whether directly or indirectly.

11. Growth Limitations. The District agrees that the Town shall not be limited in implementing Town Council or voter approved growth limitations, even though such actions may reduce or delay development within the District and the realization of District's revenue.

12. Conveyance. The District agrees to convey to the Town, at no expense to the Town and upon written notification from the Town, any real property owned by the District that is necessary, in the Town's sole discretion, for any Town capital improvement projects for transportation, utilities or drainage. The District shall, at no expense to the Town and upon written notification from the Town, transfer to the Town all rights-of-way, fee interests and easements owned by the District that the Town determines are necessary for access to and operation and maintenance of the Public Improvements to be owned, operated and maintained by the Town, consistent with an Approved Development Plan.

13. Privately Placed Debt Limitation. Prior to the issuance of any Privately Placed Debt, including but not limited to any Developer Debt, the District shall obtain the certification of an External Financial Advisor approved by the Town, in form substantially as follows:

We are [I am] an External Financial Advisor within the meaning of the District's Service Plan.

We [I] certify that (1) the net effective interest rate (calculated as defined in Section 32-1-103(12), C.R.S.) to be borne by [insert the designation of the Debt] does not exceed a reasonable current [tax-exempt] [taxable] interest rate, using criteria deemed appropriate by us [me] and based upon our [my] analysis of comparable high yield securities; and (2) the structure of [insert designation of the Debt], including maturities and early redemption provisions, is reasonable considering the financial circumstances of the District.

The District shall submit written notice to the Town Manager of the name of the proposed External Financial Advisor which shall either be approved or objected to by the Town within twenty (20) days of the submittal of such written notice to the Town Manager. If the Town Manager does not object to such selection within the twenty (20) day period, the Town Manager's approval shall be deemed to have been given to the District retaining the External Financial Advisor named in the written notice.

Within ten (10) days subsequent to the issuance of Privately Placed Debt, the District shall provide the Town with copies of the relevant Debt documents, the External Financial Advisor

Certification and the Bond Counsel Opinion addressed to the District and the Town regarding the issuance of the Debt.

14. Inclusion Limitation. The District may include all or a portion of the property with the Inclusion Area Boundaries only after approval by the Town of an Approved Development Plan applicable to the property to be included, and shall provide written notice to the Town of all such inclusions concurrently therewith. The District shall not include within its boundaries any property outside the Inclusion Area Boundaries without the prior approval of Town Council. The District shall only include within its boundaries property that has been annexed to the Town and no portion of any of the District shall ever consist of property not within the Town's corporate boundaries.

15. Debt Limitation. Any Recurring Fees for administrative, operations and maintenance expenses not specifically set forth in the Financial Plan, including a subsequent increase in such Recurring Fees, shall be subject to review and approval by the Town, either administratively or by formal action of Town Council, at the discretion of the Town Manager. If the Town does not respond to a request for the imposition of the Recurring Fee or an increase in such Recurring Fee within forty-five (45) days of receipt of a written request from the District, the Town shall be deemed to have approved the ability of the District to impose or increase the Recurring Fee as described in the request. The revenue from a Recurring Fee shall not be used to pay for Debt.

21. Water Rights/Resources Limitation. The District shall not acquire, own, manage, adjudicate or develop water rights or resources, except pursuant to an amendment to this Agreement or a subsequent intergovernmental agreement with the Town.

22. Eminent Domain Limitation. Upon request, the District shall provide the report to the Town.

29. Board Meetings and Website Limitations. Once an End User owns or resides in property in the Service Area, the District's Board meeting(s) shall be conducted within the boundaries of the Town of Johnstown. The District shall establish and maintain a public website and the District's website shall include the name of the Project or a name that allows residents of the community and the District to readily locate the District online and shall also include an updated street map for those properties within the Service Area that have constructed streets that are open for public use. In addition, the District shall post a copy of each call for nominations, required pursuant to Section 1-13.5-501, C.R.S., on the District's website.

30. Financial Review. The Town shall be permitted to conduct periodic reviews of the financial powers of the District in the Service Plan in the manner and form provided in Section 32-1-1101.5, C.R.S. As provided in the statute, the Town may conduct the first financial review in fifth calendar year after the calendar year in which a special district's ballot issue to incur general obligation indebtedness was approved by its electors. After such fifth calendar year and notwithstanding the provisions of the statute, the Town may conduct the financial review at any time, by providing sixty (60) days written notice to the District, except that the Town may not conduct a financial review within sixty (60) months of the completion of its most recent financial review. The Town's procedures for conducting a financial review under this Paragraph, and the remedies available to the Town as a result of such financial review, shall be identical to those provided for in Section 32-1-1101.5(2), C.R.S. The District shall be responsible for payment of the Town consultant and legal and administrative costs associated with such review, and the Town may require a deposit of the estimated costs thereof.

31. Service Plan Amendment Requirement. Actions of the District which violate the limitations set forth in the Service Plan shall be deemed to be material modifications to the Service Plan and the Town shall be entitled to all remedies available under State and local law to enjoin such actions of the District, including the remedy of enjoining the issuance of additional authorized but unissued debt, until such material modification is remedied.

32. Maximum Debt Mill Levy. The Maximum Debt Mill Levy shall be forty (40) mills subject to a Gallagher Adjustment. For the portion of any aggregate Debt which is equal to or less than fifty percent (50%) of the District's assessed valuation, either on the date of issuance or at any time thereafter, the mill levy to be imposed to repay such portion of Debt shall not be subject to the Maximum Debt Mill Levy if a majority of the Board of the District are End Users, and such District Board authorizes such a Maximum Mill Levy "roll-off" through the issuance of Debt or refunding thereof, and, as a result, the mill levy may be such amount as is necessary to pay the Debt service on such Debt, without limitation of rate.

33. Maximum Operations and Maintenance Mill Levy. The Maximum Operations and Maintenance Mill Levy shall be a mill levy the District are permitted to impose for payment of the District's administrative, operations and maintenance costs, which shall include, but not be limited to, the funding of operating reserves and sufficient ending fund balances to assure sufficient cash flow to fund expenses as they come due. If a majority of the Board of Directors of the District are End Users, such Board may eliminate the Maximum Operations and Maintenance Mill Levy.

34. Subdistricts. To the extent that the District is composed of or subsequently organized into one or more subdistricts as permitted under Section 32-1-1101, C.R.S., the term "District" as used in Section 33 above shall be deemed to refer to the District and to each such subdistrict separately, so that each of the subdistricts shall be treated as a separate, independent district for purposes of the application of this definition.

35. Mill Levy Imposition Term.

(a) Developer Debt shall expire and be forgiven twenty (20) years after the date of the initial imposition by the District of an ad valorem property tax to pay any Debt, except as otherwise provided in an amendment of this Agreement or subsequent intergovernmental agreement with the Town approved by resolution of the Town Council. Refunding Bonds shall not be subject to this Developer Debt Mill Levy Imposition Term so long as such Refunding Bonds are not owned by the Developer or by a party related to the Developer. Developer Debt shall not have any call protection.

(b) Maximum Debt Mill Levy Imposition Term: In addition to the Developer Debt Mill Levy Imposition Term, the District shall not impose a levy for repayment of any and all Debt (or use the proceeds of any mill levy for repayment of Debt) on any single property developed for residential uses which exceeds forty (40) years after the year of the initial imposition of such mill levy unless a majority of the Board of the District imposing the mill levy are End Users and have voted in favor of a refunding of a part or all of

the Debt for a term exceeding the Maximum Debt Mill Levy Imposition Term and such refunding will result in a net present value savings as set forth in Section 11-56-101, C.R.S., et seq.

36. Dissolution. Upon a determination of the Town Council that the purposes for which the District was created have been accomplished, the District agrees to file a petition in the District Court for dissolution, pursuant to the applicable State statutes. Dissolution shall not occur until the District has provided for the payment or discharge of all of its outstanding indebtedness and other financial obligations as required pursuant to State statutes.

**Re: Johnstown Farms Filing 2 and Filing 3
Service Plan – Engineer’s Cost Estimate**

Dear Mr. Campbell:

Attached is an Engineer’s Cost Estimate for the Johnstown Farms Filing 2 and Filing 3 development located in Johnstown, Colorado. The estimate for Filing 2 was based on the most current site and utility plans available for the development, and are not based on Construction Plans approved by the Town of Johnstown as they are currently not available. The estimate for Filing 3 was based on the Town approved Construction Plans for the development. An itemized spreadsheet was created for all proposed public improvements using current market unit prices. Market prices were based on previously bid and/or constructed projects in the Town of Johnstown and Weld County areas. The projected estimated costs for the development are reasonable.

Sincerely,

Michael Pietschmann, P.E., LEED AP

RE: *Financing Plan for Inclusion in District's Proposed Service Plan*

The enclosed financial forecast was created for inclusion with the proposed Johnstown Farms East Metropolitan District ("District" or "Issuer") service plan submittal to the city of Johnstown, Colorado. The enclosed forecast displays ***only one example*** of how the bond issuance may occur and is not binding on the District so long as the actual debt issued falls within the limitations contained in the text of the proposed service plan. The example below shows how the Issuer's projected Bonds will be repaid from the forecasted cash receipts and disbursements of the District under the following assumptions.

The financial forecast represents the current knowledge of TF Johnstown Farms, L.P., a Delaware limited partnership ("Developer") and projects, to the extent possible, the proposed District's expected revenues available for debt service and resulting debt payments for the forecast period. The assumptions disclosed herein are those that are materially significant to the forecast, however, they are not all-inclusive. There will be differences between forecasted and actual results, because events and circumstances frequently do not occur exactly as expected, and those differences may be material.

Certain assumptions are based on general environmental factors that are beyond any entity's ability to predict, such as future interest rates, inflation, and national and global economic conditions that may have ancillary effects on the build-out, absorption, and home pricing assumptions included herein. The following include, but are not limited to, key assumptions used in developing the financing plan:

General Assumptions:

- Commercial Assessment Ratio of 29.0%;
- Residential Assessment Ratio of 7.15%;
- Annual debt service mill levy of 40.0 mills;
- Annual operations and maintenance mill levy of 10.0 mills plus monthly fee of \$50/home/month;
- Biennial Reassessment Rate of 4.00%;
- Tax collection rate 98.50%;
- Specific ownership tax 7.00% of property tax revenue

Development Assumptions:

The land use plan, residential product mix, projected absorption rates, and projected home sales prices all are provided by the Developer. Construction of infrastructure, both public and private, is assumed to

commence in 2021. For purposes of this financial plan, the projected housing absorption is shown in Table 1 below.

Bonding Assumptions:

The financing plan assumes a single bond issuance in 2026, utilizing a senior/subordinate structure. The financing plan supports total gross bonding capacity of approximately \$9,685,000. The net proceeds from these bond issues, estimated to be \$8,577,653, will be used to fund public infrastructure costs necessary to serve the future residential homeowners located within the District. The District engineer estimates the total costs of the public infrastructure needed to complete the project exceeds the projected total bonding capacity projected herein. Key assumptions for the bond issue is summarized in Table 2 below.

More detailed tax revenue projections and debt schedules may be found in Appendix A attached hereto.

It is possible that if buildout rates and assessed valuations lag expectations, and/or if administrative and operating expenditures exceed expectations, the amount of the bonds that could be supported will be less than shown, and the timing of the issuance of these bonds will not occur as soon as indicated. The actual Debt issued by the District will almost certainly differ from what is shown in the Financial Plan. This is only one example of how the District may finance the public improvements.

Given the assumptions in the financing plan contained herein, it is our opinion that the proposed residential project to be included, and fully constructed, within the new metropolitan district boundaries should generate sufficient tax revenue to fully discharge the proposed indebtedness.

Respectfully Submitted,

$\$28,600 \times .050$ mills = **\$1,430 per year in taxes owed solely to the District**
